A Proposal should be labelled with the Proponent's name, RFP title and number. A Proposal should be submitted in the form attached to this RFP as Schedule C – Form of Proposal.

The Proponent may submit a Proposal either by email or in a hard copy, as follows:

(a) Email

If the Proponent chooses to submit by email, the Proponent must submit the Proposal electronically in a single pdf file to the City by email at: purchasing@surrey.ca

on or before the following date and time

(the “Closing Time”).

PDF emailed Proposals are preferred and the City will confirm receipt of emails. Note that the maximum file size the City can receive is 10Mb. If sending large email attachments, Proponents should phone to confirm receipt. A Proponent bears all risk that the City's equipment functions properly so that the City receives the Proposal on time.

(b) Hard Copy

If the Proponent chooses NOT to submit by email, the Proponent should submit one original unbound Proposal and one (1) copy (two (2) in total) which must be delivered to the City at the office of:

2.2 Information Meeting

An information meeting may be hosted by the City Representative to discuss the City's requirements under this RFP (the “**Information Meeting**”). While attendance is at the discretion of Proponents, Proponents who do not attend will be deemed to have attended the Information Meeting and to have received all of the information given at the Information Meeting. At the time of issuance of this RFP a meeting has not been scheduled.

An amendment should be signed by an authorized signatory of the Proponent in the same manner as provided by section 3.3. E-mailed amendments are permitted, but such amendment should show only the change to the proposal price(s) and should not disclose the actual proposal price(s). A Proponent bears all risk that the City's equipment functions properly so as to facilitate timely delivery of any amendment.

If the Proponent chooses NOT to submit by email, the Proponent should submit a Submission in a particular submittal format, to reduce paper, encourage our recycled product expectations, and reduce package bulk. Bulk from binders and large packages are unwanted. Vinyl plastic products are unwanted. The City also has an environmentally-preferable purchasing commitment, and seeks a package format to support the green expectations and initiatives of the City.

Please do not use any plastic or vinyl binders or folders. The City prefers simple, stapled paper copies. If a binder or folder is essential due to the size of your Proposal, they should be fully 100% recycled stock.

The City seeks and prefers submittals on 100% Post Consumer Fibre (PCF) paper, consistent with the City's policy and the City environmental practices.

Please double-side your Proposal.

3.2 Form of Proposal

Proponents should complete the form of Proposal attached as Schedule C, including Schedules C-1 to C-5. Proponents are encouraged to respond to the items listed in Schedules C-1 to C-5 in the order listed. Proponents are encouraged to use the forms provided and attach additional pages as necessary.

3.3 Signature

The legal name of the person or firm submitting the Proposal should be inserted in Schedule C. The Proposal should be signed by a person authorized to sign on behalf of the Proponent and include the following:

- (a) If the Proponent is a corporation then the full name of the corporation should be included, together with the names of authorized signatories. The Proposal should be executed by all of the authorized signatories or by one or more of them provided that a copy of the corporate resolution authorizing those persons to execute the Proposal on behalf of the corporation is submitted;
- (b) If the Proponent is a partnership or joint venture then the name of the partnership or joint venture and the name of each partner or joint venturer should be included, and each partner or joint venturer should sign personally (or, if one or more person(s) have signing authority for the partnership or joint venture, the partnership or joint venture should provide evidence to the satisfaction of the City that the person(s) signing have signing authority for the partnership or joint venture). If a partner or joint venturer is a corporation then such corporation should sign as indicated in subsection (a) above; or
- (c) If the Proponent is an individual, including a sole proprietorship, the name of the individual should be included.

4. EVALUATION AND SELECTION

4.1 Evaluation Team

The evaluation of Proposals will be undertaken on behalf of the City by the Evaluation Team. The Evaluation Team may consult with others including City staff members, third party consultants and references, as the Evaluation Team may in its discretion decide is required. The Evaluation Team will give a written recommendation for the selection of a Preferred Proponent or Preferred Proponents to the City.

4.2 Evaluation Criteria

The Evaluation Team will compare and evaluate all Proposals to determine the Proponent's strength and ability to provide the Services in order to determine the Proposal which is most advantageous to the City, using the following criteria:

- (a) Experience, Reputation and Resources**
The Evaluation Team will consider the Proponent's responses to items (i) to (x) in Schedule C-2.
- (b) Technical**
The Evaluation Team will consider the Proponent's responses to Schedule C-4 and items (i) to (vi) in Schedule C-3.
- (c) Financial**
The Evaluation Team will consider the Proponent's response to Schedule C-5.
- (d) Statement of Departures**
The Evaluation Team will consider the Proponent's response to Schedule C-1.

The Evaluation Team will not be limited to the criteria referred to above, and the Evaluation Team may consider other criteria that the team identifies as relevant during the evaluation process. The Evaluation Team may apply the evaluation criteria on a comparative basis,

evaluating the Proposals by comparing one Proponent's Proposal to another Proponent's Proposal. All criteria considered will be applied evenly and fairly to all Proposals.

4.3 Discrepancies in Proponent's Financial Proposal

If there are any obvious discrepancies, errors or omissions in Schedule C-5 of a Proposal (Proponent's Financial Proposal), then the City shall be entitled to make obvious corrections, but only if, and to the extent, the corrections are apparent from the Proposal as submitted, and in particular:

- (a) if there is a discrepancy between a unit price and the extended total, then the unit prices shall be deemed to be correct, and corresponding corrections will be made to the extended totals;
- (b) if a unit price has been given but the corresponding extended total has been omitted, then the extended total will be calculated from the unit price and the estimated quantity;
- (c) if an extended total has been given but the corresponding unit price has been omitted, then the unit price will be calculated from the extended total and the estimated quantity.

4.4 Litigation

In addition to any other provision of this RFP, the City may, in its absolute discretion, reject a Proposal if the Proponent, or any officer or director of the Proponent submitting the Proposal, is or has been engaged directly or indirectly in a legal action against the City, its elected or appointed officers, representatives or employees in relation to any matter, or if the City has initiated legal action against any officers or directors of the Proponent.

In determining whether or not to reject a Proposal under this section, the City will consider whether the litigation is likely to affect the Proponent's ability to work with the City, its consultants and representatives and whether the City's experience with the Proponent indicates that there is a risk the City will incur increased staff and legal costs in the administration of the Contract if it is awarded to the Proponent.

4.5 Additional Information

The Evaluation Team may, at its discretion, request clarifications or additional information from a Proponent with respect to any Proposal, and the Evaluation Team may make such requests to only selected Proponents. The Evaluation Team may consider such clarifications or additional information in evaluating a Proposal.

4.6 Interviews

The Evaluation Team may, at its discretion, invite some or all of the Proponents to appear before the Evaluation Team to provide clarifications of their Proposals. In such event, the Evaluation Team will be entitled to consider the answers received in evaluating Proposals.

4.7 Multiple Preferred Proponents

The City reserves the right and discretion to divide up the Services, either by scope, geographic area, or other basis as the City may decide, and to select one or more Preferred Proponents to enter into discussions with the City for one or more Contracts to perform a portion or portions of the Services. If the City exercises its discretion to divide up the Services, the City will do so reasonably having regard for the RFP and the basis of Proposals.

The proponent shall identify any cost impact to the Proposal if the City decides to divide up the Services.

In addition to any other provision of this RFP, Proposals may be evaluated on the basis of advantages and disadvantages to the City that might result or be achieved from the City dividing up the Services and entering into one or more Contracts with one or more Proponents.

4.8 Negotiation of Contract and Award

If the City selects a Preferred Proponent or Preferred Proponents, then it may:

- (a) enter into a Contract with the Preferred Proponent(s); or
- (b) enter into discussions with the Preferred Proponent(s) to attempt to finalize the terms of the Contract(s), including financial terms, and such discussions may include:
 - (1) clarification of any outstanding issues arising from the Preferred Proponent's Proposal;
 - (2) negotiation of amendments to the departures to the draft Contract, if any, proposed by the Preferred Proponent as set in Schedule C-1 to the Preferred Proponent's Proposal; and
 - (3) negotiation of amendments to the Preferred Proponent's price(s) as set out in Schedule C-5 to the Preferred Proponent's Proposal and/or scope of Services if:
 - (A) the Preferred Proponent's financial Proposal exceeds the City's approved budget, or
 - (B) the City reasonably concludes the Preferred Proponent's financial proposal includes a price(s) that is unbalanced, or
 - (C) a knowledgeable third party would judge that the Preferred Proponent's price(s) materially exceed a fair market price(s) for services similar to the Services offered by the Preferred Proponent as described in the Preferred Proponent's Proposal; or
- (c) if at any time the City reasonably forms the opinion that a mutually acceptable agreement is not likely to be reached within a reasonable time, give the Preferred Proponent(s) written notice to terminate discussions, in which event the City may then either open discussions with another Proponent or terminate this RFP and retain or obtain the Services in some other manner.

5. GENERAL CONDITIONS

5.1 No City Obligation

This RFP is not a tender and does not commit the City in any way to select a Preferred Proponent, or to proceed to negotiations for a Contract, or to award any agreement, and the City reserves the complete right to at any time reject all Proposals, and to terminate this RFP process.

5.2 Proponent's Expenses

Proponents are solely responsible for their own expenses in preparing, and submitting Proposals, and for any meetings, negotiations or discussions with the City or its representatives and consultants, relating to or arising from this RFP. The City and its representatives, agents, consultants and advisors will not be liable to any Proponent for any claims, whether for costs, expenses, losses or damages, or loss of anticipated profits, or for any other matter whatsoever, incurred by the Proponent in preparing and submitting a Proposal, or participating in negotiations for a Contract, or other activity related to or arising out of this RFP.

5.3 No Contract

By submitting a Proposal and participating in the process as outlined in this RFP, Proponents expressly agree that no contract of any kind is formed under, or arises from, this RFP, prior to the signing of a formal written Contract.

5.4 Conflict of Interest

A Proponent shall disclose in its Proposal any actual or potential conflicts of interest and existing business relationships it may have with the City, its elected or appointed officials or employees. The City may rely on such disclosure.

5.5 Solicitation of Council Members, City Staff and City Consultants

Proponents and their agents will not contact any member of the City Council, City staff or City consultants with respect to this RFP, other than the City Representative named in section 2.5, at any time prior to the award of a contract or the cancellation of this RFP.

5.6 Confidentiality

All submissions become the property of the City and will not be returned to the Proponent. All submissions will be held in confidence by the City unless otherwise required by law. Proponents should be aware the City is a "public body" defined by and subject to the *Freedom of Information and Protection of Privacy Act* of British Columbia.

SCHEDULE A - SCOPE OF SERVICES

1. BACKGROUND INFORMATION

The City of Surrey intends to conduct cross connection survey of all Industrial, Commercial and Institutional (ICI) properties in order to minimize the risk of contaminants originating from private properties to enter City's water system as well as private plumbing works. There are approximately 4,000 ICI properties within the City, and currently the City has very limited information on the potential cross connection locations as well as existing Backflow Preventers (BPs) installed in these properties. Under the City's Cross Connection Survey Program, the City will hire contractor(s) to survey all these ICI properties on a hazard priority basis.

In this project (#1216-201), the City has selected 900 ICI properties to be surveyed based on their hazard level and location in the City. The City intends to survey these properties within 3 years, commencing July 2016. The list of these properties is included in **Schedule A-1**. Maps showing the locations of the properties for each survey period are attached in **Schedule A-2**, shp file could be provided upon request.

After the 3-year contract, the City has the option to retain the same contractor for two times one-year contract. In **Schedule A-3**, about 600 properties in a relatively lower hazard level are provided. These properties can be surveyed in the extended contract period, about 300 properties per year. **Schedule A-4** shows the location maps for the extended period.

2. SCOPE OF SERVICES

The scope of services includes, but is not limited to the following components:

2.1 Survey Preparation

Two weeks prior to conducting the survey, the Contractor will send a notice letter to each of the property owner(s)/tenant(s). Template of the notice letter will be provided by the City. The property owner(s) or tenant(s) may call to schedule appointments. The Contractor should have appropriately trained staff at sufficient levels to accept calls from property owner(s)/tenant(s) and mail letters. Property owner(s)/tenant(s) may only be contacted for the purposes of completing work as described in this RFP and no other documentation such as Contractor company promotional materials may be included. Contractors agree that they will not sell or redistribute any property information including but not limited to names, addresses and property details to any Contractor owned companies, business partners or third parties.

2.2 Survey/Inspection on the Properties

At the beginning of each six (6) month survey period, the City will provide the surveyor a service map for each survey property which will show the location of water service connection(s) to the lot, meter locations (if existing), a colored dot on the lot to indicate if backflow preventers exist, and approximate building locations.

During the survey, the surveyor is expected to:

- Mark on the map for each property the location where the water line goes into each building and location of existing premise isolation and fire line isolation. For those that have no BPs, mark the best location for premise isolation and/or fire line isolation.
- The map information is from COSMOS (City's mapping system) which may not be 100% correct. The surveyor should make a note on the map if anything different is found on site. If there are more than one service connections going into the property, the surveyor may spend reasonable time to identify all **active** water service connections including domestic and fire lines. Use a meter reading probe (provided by the City) to get the meter serial number if multiple meters exist. Make a note on the map if any active service connections have no meter on.
- Identify all cross connections and recommend appropriate backflow preventers based on City's CCC Standards and Specifications.
- For existing BPs, check if they match with the information in BSI online's database. Confirm that the appropriate backflow preventer has been chosen and was properly installed. If not, recommend the new type of Backflow Preventer, and the proper way of installation.
- Confirm any removed/replaced BPs shown in BSI database that are no longer required, i.e. if hazard has been removed, or hazard still exists but device is removed.
- Identify other conditions that could be detrimental to the safety of the water supply, to the building occupants or to the municipal water distribution system due to backflow issues.
- Explain to the owner(s) or tenant(s) the potential hazards of cross connections and the proper methods or devices to isolate the cross connections.
- In case a facility sits on several lots, all the lots should be surveyed together. Even if only one lot is included in the list, all the surrounding lots belonging to the same facility or same owner should be surveyed at the same time.

2.3 Survey Report

After the survey of each property, a Survey Report should be prepared and sent to the City within one (1) month. A sample of the Survey Report is attached as **Schedule A-5**. The Microsoft Excel template can be downloaded on an iPad and carried to the survey site. The general guideline to prepare the Survey Report is as follows:

- Complete and confirm the facility's contact information, including the facility's name, operator and owner's full name, mailing address, phone number, and e-mail address. The facility's contact shall be the person responsible for the authorization of the backflow preventer's installation as required in the survey report.
- Identify hazard level of the facility based on the zoning of the lot.
- For all cross connections that require BP device installation, list the Location, Hazard Type, Protection Type, Hazard Level, and Pipe Size in the Survey Report. Premise isolation and fire line isolation should be clearly identified.
- For all cross connections without an existing device or without the right selection of device, recommend backflow preventer device appropriate to the level of hazard following the City's Cross Connection Control Standards & Specifications.

- Take one representative picture for each location of cross connection. Label and provide a short description of each picture taken. The picture taken for cross connection location where additional/new BP is required to be installed has to be clear enough to allow the owner to identify the proper site and/or location of the cross connection. An example of what is required is shown in Appendix A-5.
- Ensure that regular “sink” with Air Gap such as kitchen/bathroom sink within office-type buildings should not be listed in the Survey Report; however, they should be listed when they are located within medical type buildings (e.g., laboratory, care home, etc.). Nevertheless any sinks where a hose connection can be connected should be listed in the report.
- If multiple active service connections exist on the property, correlation between the water service, meter ID (serial number) and the premise/fireline isolation should be listed in the report. Premise isolations are required on all of the active service connections. If there is no meter on the active service connection, make a note in the report, or mark on the service map provided by the City.
- For one facility located on several lots with more than one service connections servicing the lots and the internal water system is inter connected then one survey report should be prepared.
- If the internal water system is separated from different service connections, then for each of the separate systems one survey report should be prepared; identify the survey report with separate house number or unit number.
- For existing BPs, specify BP Type, Size, Serial No. and Model in the Survey Report. Highlight any discrepancies found in the field with regards to existing BPs (e.g., more devices found, different type of device installed as compared to BSI’s database, or devices have been removed but hazard still exists, etc.).
- Avoid stating open-ended and indefinite items or comments in the Survey Report. Plainly state what device is required and where it should be installed, based on the surveyor’s best technical judgment and the field conditions observed.
- For strata lots with one service connection, all cross connections should be listed in one survey report, but the unit number should be clearly listed in the location field.

When the surveyor submits the survey reports to the City, the marked service maps should be turned in, the blank columns in **Schedule A-1** or **Schedule A-3** should also be filled out and submitted, which shows how many BPs exist and how many are required to be installed or tested in each property. These numbers will determine the category of the property. The City will pay based on this category, please see Section 5: Fees and Payment for details.

2.4 Survey Follow Up Questions

After the survey, the surveyor is also responsible to answer any questions coming from the property owner(s) or operator(s) with regards to the Survey Reports including but not limited to the location of the cross connections, alternative type of Backflow Preventers to be installed, etc.

3. SURVEYOR QUALIFICATIONS

In order to accommodate the specific targets of this program, the surveyor should demonstrate the following:

- a) At least ten (10) years' experience of delivering similar services related to cross connection control and/or plumbing works. List all relevant projects within the last five (5) years, including project description, project size, project clients, etc.
- b) Received formal training on cross connection survey or other similar programs.
- c) Familiarity with cross connection standards and specifications.
- d) Familiarity with City of Surrey standards and procedures.
- e) Hold a valid City of Surrey business license and the required liability insurance.
- f) Provide at least three (3) reference contacts from previous similar cross connections control projects done by the surveyor. The City may check the reference of previous projects.

4. SURVEY SCHEDULE

City's goal is to survey at least 900 properties in 3 years with about 150 properties to be surveyed in the first three (3) month's of every six (6) month period, starting July 2016. The anticipated survey schedule is shown in **Table 1** below.

Table 1 – Anticipated Survey Schedule

Survey Time	Deadline to submit survey reports in each period	Number of Properties Surveyed (±10 properties)
July~Sept 2016	Oct. 31, 2016	150
Jan.~Mar 2017	April 30, 2017	150
July~Sept 2017	Oct. 31, 2017	150
Jan.~Mar 2018	April 30, 2018	150
July~Sept 2018	Oct. 31, 2018	150
Jan.~Mar 2019	April 30, 2019	150
Optional		
July~Sept 2019	Oct. 31, 2019	150
Jan.~Mar 2020	April 30, 2020	150
July~Sept 2020	Oct. 31, 2020	150
Jan.~Mar 2021	April 30, 2021	150

The Contractor should survey the properties in sequence as listed in **Schedule A-1 & A-3**, as the sequence is sorted by hazard level and location.

If any of the properties are not accessible during the first visit, the Contractor may try to visit the same property as often as reasonable while ensuring that the target of 150 ±10 properties per six (6) months is met. Any inaccessible properties by the end of one survey period should be reported to the City. The Contractor may not visit properties not scheduled to be visited in the current six (6) month period without prior approval of the City.

5. FEES AND PAYMENT

As shown in **Schedule A-1** and **Schedule A-3**, the City has prepared Preliminary Category for each property based on available information including building area or unit numbers for strata properties. Based on this information, the breakdown for each category is as follows:

- **Large size properties:** 50
- **Medium size properties:** 100
- **Small size properties:** 750

The total number of properties for each category as noted above is NOT meant to be used as the basis for final payment. It is provided solely to help the Proponent in estimating the cost associated with the different category.

The Final Category (Large/Medium/Small) for each property may change based on the information collected during the survey. The Final Category is determined based on the total number of BPs or total number of testable BPs in each property, both existing and future (required) devices. **Table 2** shows the criteria to be adopted when determining the Final Category for each surveyed property:

Table 2 – Final Category Criteria

Final Category	Total # of BP (Existing and Required)		Total # of Testable BP (Existing and Required)
Large (L)	20	OR	8
Medium (M)	10-20		4-8
Small (S)	< 10		< 4

The Contractor shall be paid based on the two (2) criteria listed below:

- Final Category of each property (Large/Medium/Small) as filled in **Schedule A-1** by the Contractor after the survey, and
- Contractor's charge out rate per property in each category as filled in **Schedule C-5-1** by the Contractor as part of the proposal submission.

Additionally, the proposal shall indicate the hourly rate for each service for the Optional two additional one year extension periods in **Schedule C-5-2**, if any changes of the hourly rate or travel cost are anticipated.

Some large scale facilities with multiple service connections may have separate internal water systems for which a separate survey report should be prepared for each system.

6. PROPOSAL TIMING

The successful Contractor team shall be fully committed to the program's objectives and its schedule. The anticipated timing of the major activities under this project is shown below:

- Proposal Submission Closing Date June 20, 2016
- Proposal Evaluation June 21-24, 2016
- Appointment of Contractor July 5, 2016
- Project Kick Off Meeting July 15, 2016
- Survey Periods as shown in Table 1

The insurance policy coverage limits shall not be construed as relieving the Consultant from responsibility for any amounts which may exceed these limits, for which the Consultant may be legally liable.
