A. DELEGATIONS

1. **David Phillips, General Manager
Mystical Distributing Company Ltd.**
File: 3900-02; 0550-20-10

David Phillips, General Manager, Mystical Distributing Company Ltd. was in attendance regarding fireworks in the City of Surrey.

Note: See By-law No. 15735 for final adoption under Item H.17 of the Regular Council - Public Hearing agenda.

David Phillips provided the following comments:

- Fireworks are an international symbol of celebration.
- The Y2K celebrations held one common theme – fireworks.
- Many countries use fireworks for celebrations.

- Canada celebrates the use of fireworks in its currency.

It was

Moved by Councillor Higginbotham

Seconded by Councillor Tymoschuk

That the example of Canadian currency with fireworks as background, as submitted by David Phillips be received.

Carried

- Fireworks have been around for over 1,400 years and were sold in North America by the retail trade for the last 300 years.
- Fireworks have been manufactured in Canada for over 100 years.
- The issue at hand is the selling of fireworks for one week of the year for one day of the year (Halloween).
- Metro Toronto celebrates two fireworks events – Canada Day and Victoria Day.
- Regina celebrates three fireworks events – Victoria Day, Canada Day and New Year's Eve.
- Fireworks are sold in B.C.'s interior year round.
- If the sale of fireworks is banned, people will go to neighbouring municipalities or the United States to buy fireworks.
- The proposed ban would not stop the demand but would change the supply.
- Canadian fireworks are regulated federally and have the highest standards and regulations in the world.
- Canada does not sell fireworks to the United States as there is no market for our overpriced, over-manufactured goods.
- People will substitute Canadian fireworks for shoddy American fireworks rated as ten times higher the power than Canadian fireworks.
- American fireworks are cheaper but more destructive.
- If you take the sale of fireworks out of retail stores, licensed by the City, inspected by Fire and Police, the supply chain will move underground to criminal organizations and result in increased smuggling for increased amounts of money.
- There are many other fires and injuries attributed to other reasons than fireworks, such as short circuits, sports and equipment injuries, and unknown causes.
- The banning of fireworks will not stop the intentional fire setting at Halloween as there is a world wide trend to set fires against evil spirits originated years ago by the Celts.
- Bonfires are lit in Nova Scotia, in Vermont they torch bridges, firecrackers are thrown at homes and mailboxes in Sydney, Nova Scotia, in St. John, they are targeting historic bridges.
- Don't punish those who use fireworks responsibly.
- Educating kids and parents on firework safety with members of the community would reduce the incidents of fire and injuries.
- Existing by-laws need more teeth and need to be enforced.

2. **Lina Halwani**

Ministry of Transportation

Alan Emery, Associated Engineering

File: 0410-20; 0430-30; 0550-20-10

Lina Halwani, Ministry of Transportation, and Alan Emery, Associated Engineering were in attendance to present information regarding the Highway 15 FAST (Free and Secure Trade) Lane expansion project between 4 Avenue and 8 Avenue.

- The FAST project just south of 4th Avenue has already been constructed.
- The current project consists of an extension of the project to 8th Avenue.
- The Highway 15 FAST truck lane project extension is a SHIP initiative.
- There is a joint funding agreement in place between the Government of Canada and the Province of British Columbia.
