SCHEDULE A – SCOPE OF SERVICES

Project Title: Pre-Qualification of Synthetic Turf Field Civil and Lighting Contractors

Project Reference No.: 1220-050-2017-004

1. PROJECT BACKGROUND

Cloverdale Athletic Park (CAP) is a multi-field athletic facility located at 16165 64th Avenue in Surrey, BC. The park is home to numerous grass and synthetic turf fields and amenities. The City of Surrey intends to add an additional synthetic turf field and a synthetic turf warm-up lawn to the park's inventory. The new synthetic turf field is to be located north of the existing synthetic football field on the west side of the park, and the new warm-up lawn will be located between them (see Figure A.1).

The existing synthetic turf football field requires a turf replacement. This turf replacement will be combined with the turf supply and install of the new field and warmup lawn as one contract, with staggered start and end dates for each field. The turf replacement on Field #1 is to be complete by July, 2017, while the turf on Field #2 and the warm up will follow the civil scope of work in this contract. There may be some overlap of limit of work and schedule to coordinate with the turf contractor, to be determined.

As part of this civil contract, there is a two storey cinderblock announcers' booth structure located on the west side of the parking lot adjacent to Field #2 that requires demolition. In addition, there are a number of outdated and undersized civil utilities in the vicinity of these fields that require upgrades, in advance of developing a proposed new field house at the northwest corner of the park. Lastly, this civil contract includes the development of the aggregate base, drainage, lighting, structural concrete, flatwork, and fences around Field #2 and various other areas in the vicinity.

As both road frontages on the park are arterial collectors, the contractor is also required to submit a Traffic Management Plan (TMP) as part of their post-award paperwork. The TMP must be approved before trucking to and from the site can commence.

2. PROJECT OBJECTIVES

The objectives of this civil scope of work include:

- demolition of announcer's booth building;
- modernized and upsized underground utility services in the northwest quadrant of Cloverdale Athletic Park, including stub outs for the proposed location of the new field house in the northwest corner; and,
- the construction of the civil components of a new FIFA sized synthetic turf soccer field, plus 36m x 73m warm up lawn (minus the shock pad and synthetic turf carpet).

3. SCOPE OF WORK

The civil work specifically involved in this contract includes, but is not limited to:

- the demolition of a cinderblock and sheet-metal roofed two storey announcer's booth building, and the use of all available recycling opportunities for maximum waste reduction in the removal of demolition debris;
- the decommissioning and re-establishment of site services (water, sanitary, storm, electrical, irrigation, gas, and telecom as necessary) to modernize and upsize outdated services to the park in the northwest quadrant;
- to stub out those services for future development of a proposed field house to be constructed in the northwest corner of the site at a date to be determined;
- all clearing/grubbing, bulk excavation, and compacted base preparation for import of aggregate backfill, per the geotechnical report;
- all drainage works associated with the field and perimeter areas;
- the supply and placement of all backfill per consultant specifications;
- the supply and install of new field light bases, conduits and electrical work, poles, and fixtures per the consultant drawings;

- the formwork and placement of concrete for continuous concrete edge anchor, cast-in-place concrete seating wall, paved flatwork;
- all fencing, netting, players benches, shelter structures, signage; and other miscellaneous metals; and,
- all fine grading, irrigation, supply and placement of topsoil and landscaping to consultant drawings and specifications.

4. WORK SCHEDULE

Respondents demonstrating the requisite experience, capability, capacity and resources will be issued tender documents. The following is an estimated schedule of events. The City reserves the right to cancel or change the schedule at any time:

Anticipated Event	Estimated Date
Contract Award	June 12, 2017
Construction start up meeting	June 15 - 19, 2017
Mobilization	June 19, 2017
Substantial Completion	September 1, 2017

Construction is expected to take 10 weeks with substantial completion on September 1, 2017. The synthetic turf installation will need to be coordinated with the contractor and the turf installer at some point in the latter half of this construction window.
