ADDENDUM NO. 1

REQUEST FOR QUOTATIONS (RFQ) NO.:	1220-040-2017-017
TITLE:	ROAD WEATHER INFORMATION SYSTEM (RWIS)
ADDENDUM ISSUE DATE:	JANUARY 5, 2017
CLOSING DATE:	PREFER TO RECEIVE QUOTATIONS ON OR BEFORE JANUARY 20, 2017

INFORMATION FOR CONTRACTORS

This Addendum is issued to provide additional information and clarifications to the RFQ for the above named project, to the extent referenced and shall become a part thereof. No consideration will be allowed for extras due to the Contractor not being familiar with this Addendum. This Addendum No. 1 contains one (1) page in total.

Q.1. Can the Contractor assume that the small electronics cabinet, camera and sensors will be mounted on City owned infrastructure such as a street light pole in close proximity to the roadway being monitored?

A.1. Yes.

Q.2. Can the Contractor assume that any City infrastructure that the equipment will be installed on (i.e. street light pole) will have 120 volts AC Power accessible inside the pole or on the outside of the pole that the Contractor can use to power the equipment?

A.2. Yes.

Q.3. If the Contractor assumes that City power will be available, is a simple “fused splice” acceptable to tie in the AC Power, or is a CSA inspected disconnect box mounted on the street light pole required, or is a metered disconnect box needed (meter provided by Hydro authority)?

A.3. A certified electrician would have to review this with the City at the time of installation.

END OF ADDENDUM

All Addenda will become part of the RFQ Documents.
