INFORMATION FOR CONTRACTORS

This Addendum is issued to provide additional information and clarifications to the RFI for the above named project, to the extent referenced and shall become a part thereof. No consideration will be allowed for extras due to the contractor not being familiar with this addendum. This Addendum No. 2 contains one (1) page in total.

Q.1. Refer to page 11 of the RFEOI/SOQ, Specialized Devices, do these devices need to support up to 13x18 size, or is the correct size up to 12x18?

A.1. The current printer is capable of 13x18 media. To date, 11x17 is the largest media users have printed on, with full bleed.

Q.2. Refer to page 12 of the RFEOI/SOQ, Specialized Devices (continued from page 11), regarding the 125 ppm device, would the City accept 2 devices which, together, exceed 125 ppm (ie. 2 x 75 ppm devices)

A.2. In consideration of space constraints and business workflow, a single, high speed printer is preferred.

Q.3. Would the City accept devices from more than one manufacturer in the same submission?

A.3. A Submission with devices from more than one manufacturer is acceptable if the combined manufacturers are being offered to meet the Scope of Services. However, if manufactures are being offered as completely separate solutions (ie. option 1 and option 2) to meet the Scope of Services, then separate Submissions should be provided.
