

Corporate Report

NO: R129

COUNCIL DATE: May 30, 2005

REGULAR COUNCIL

TO: Mayor & Council DATE: May 17, 2005
FROM: General Manager,
Engineering FILE: 4700-500
SUBJECT: Update of Local Area Service By-law 15408 for East
Newton Sanitary Pump Station, Force Main and
Gravity Main

RECOMMENDATION

That Council approve the updated schedule based on the actual final construction costs for By-law 15408 for the East Newton Sanitary Pump Station, Force Main and Gravity Main.

INTENT

To seek Council's approval to update the schedule in By-Law No. 15408 to reflect the final actual construction costs for the East Newton Sanitary Pump Station, Force Main and Gravity Main.

BACKGROUND

Council adopted By-law 15408 for the Local Area Service charges for the East Newton Sanitary Pump Station, Force Main and Gravity Main at 15400 block and 68 Avenue. Construction has been completed and final costs determined.

Attached Schedule 4 is to replace the corresponding schedules in By-law 15408 to reflect the actual final construction costs. Lots 6814/56 – 152 Street, and 15304/31/34/72 – 68 Avenue will not be charged for the fronting sewer because these lots are not serviced by a fronting sewer. No charges will be imposed for 6964 – 152 Street because the charges have been exchanged with the gravity sewer right-of-way granted by the owner. Generally the actual costs are lower than the original estimated costs.

Paul Ham, P.Eng.
General Manager, Engineering
