## **Evaluation**

Our consultant reviewed all tenders. All the tenders submitted the required 10% bid bond, and signed and sealed the Form of Tender.

The low bidder, Triahn Enterprises Ltd., has provided a “Consent of Surety - Performance Bond and Labour & Materials”, and agreed to complete the work within 200 working days as stipulated in the contract.

Triahn Enterprises Ltd. have not completed work for the City of Surrey before, but our consulting engineers have worked with them on an arterial widening contract with the Township of Langley and have found them to be competent and experienced. Their sub-contractors have satisfactorily completed similar projects for the City in recent years and we have also found them to be competent and experienced. There are not currently any outstanding actions that have been brought and served against the City by Triahn Enterprises.

## **Funding**

Funding for this project is provided within the City's Transportation and Utilities budgets with a portion shared by TransLink.
