

## **Proposal Submissions**

In accordance with the City's standard consultant selection process, the following firms were invited to submit proposals for this assignment:

R. F. Binnie & Associates Ltd.  
H.Y. Engineering Ltd.  
Civic Consultants Abbotsford Ltd.

Each of these firms submitted a proposal.

## **Evaluation**

The proposals were evaluated using the following criteria:

- ◇ understanding of assignment
- ◇ experience of project team in relation of the work of the assignment
- ◇ work plan and project schedule
- ◇ costs

The proposal from R. F. Binnie & Associates Ltd. demonstrated a very thorough understanding of the project requirements, offered a team that had considerable experience with projects of a similar nature and demonstrated an appropriate level of effort. The design fee proposed by R. F. Binnie & Associates Ltd. is considered to be reasonable for this type of engineering assignment. Overall the proposal from R.F. Binnie & Associates Ltd. was determined to represent the best value to the City.

## **Sustainability Considerations**

The proposed infrastructure work that is the subject of this contract will improve the efficient movement traffic within Surrey and provide greater opportunity for cycling and pedestrian movement, which will support the Sustainability Charter's vision of efficiently moving people and goods, not just vehicles. The project will enhance the public realm by providing new sidewalks and better access to transit stops and schools. Better access to transit will reduce traffic congestion, leading to a reduction in vehicle emissions. In particular, the project supports the following Sustainability Charter's Scope actions:

- SC 13: Creating a Fully Accessible City
- EN 13: Enhancing the Public Realm
- EC 16: Increased Transit and Transportation to Support a Sustainable Economy
- EN 11: Commitment to the Climate Change Action Plan

## FUNDING
