

## REGULAR COUNCIL

TO: **Mayor & Council**

DATE: **October 29, 2015**

FROM: **General Manager, Engineering**

FILE: **0870-40/63**

SUBJECT: **Acquisition of Property at 16596 – 24 Avenue**

---

## RECOMMENDATION

The Engineering Department recommends that Council approve, in accordance with the general terms and conditions described in this report, the purchase of the property located at 16596 – 24 Avenue (PID No. 011-386-282), as illustrated in the attached Appendix I.

## INTENT

This intent of this report is to seek Council's approval of the purchase of 16596 – 24 Avenue for the purpose of land consolidation for the construction of the South Surrey Engineering and Parks Operations Works Yard ("South Works Yard"), and to facilitate the construction of a portion of the future 166 Street between 23 Avenue and 24 Avenue.

## BACKGROUND

The acquisition of this particular property will provide for the westerly section of the future 166 Street, between 23 Avenue and 24 Avenue, as well as providing future surplus lands that will be available for sale and consolidation with other lands to the immediate west upon their future development. This acquisition is an integral component for the ultimate access to the proposed South Works Yard.

The proposed South Works Yard is located at 16666 – 24 Avenue in the Grandview Heights neighbourhood. A portion of this property is leased to Metro Vancouver for an existing water reservoir facility and the future twinning of the water reservoir when such additional reservoir capacity is required. The Metro Vancouver lease area covers 3.16 acres of the 6.73 acre City-owned parcel, as generally illustrated on the air photo attached as Appendix I. The Metro Vancouver lease is for a 33-year term (September, 1999 – August, 2032), with an option for Metro Vancouver to renew the lease for an additional 33 years. The remaining vacant area was originally identified as an ideal location for the South Works Yard. The new South Works Yard will accommodate both Engineering Operations and Parks Operations staff. It is designated as "civic utility" in the Grandview Heights NCP Area #2 (Sunnyside Heights) Plan and is located to provide convenient access to all of South Surrey. The interface between the Metro Vancouver leased area and the area proposed to accommodate the South Works Yard is illustrated on the attached Appendix II.

A purchase agreement for the property located at 16596 – 24 Avenue has been negotiated with the owners. Also, a purchase agreement has been negotiated with the owner of the adjacent parcel located at 16604 – 24 Avenue and a further report will be concurrently provided to Council with the results of that negotiation. These parcels are illustrated on Appendix I attached to this report.

## DISCUSSION

The property at 16596 – 24 Avenue has an area of 1.0 acre and is located in the South Surrey area located three lots west of the City-owned reservoir site at 16666 – 24 Avenue.

### Property Characteristics

The Property is zoned RA (One-Acre Residential Zone) and is improved with a dwelling, attached double garage and a separate shop/barn fronting 24 Avenue.

### Funding for Purchase

The Finance Department has confirmed that funds for this acquisition are available in the Transportation Acquisition Program.

## SUSTAINABILITY CONSIDERATIONS

The acquisition of the subject property supports the objectives of the City's Sustainability Charter; more particularly, the following Charter Scope action elements:

- EC3: Ensuring corporate sustainability related to infrastructure, by developing policies and programs to undertake full life-cycle cost analysis evaluation of new and retrofitted buildings and infrastructure, and by establishing financial plans and related reserves to ensure adequate long-term funding for the maintenance and replacement of the City's infrastructure systems;
- SC6: Accessible and appropriately located services within the City to support the equitable distribution of services and amenities for Surrey residents;
- EN4: Reducing the number of trips that are necessary for conducting City business; and
- EN5: Establishing minimum green building standards to be applied for new municipal facilities.

## CONCLUSION

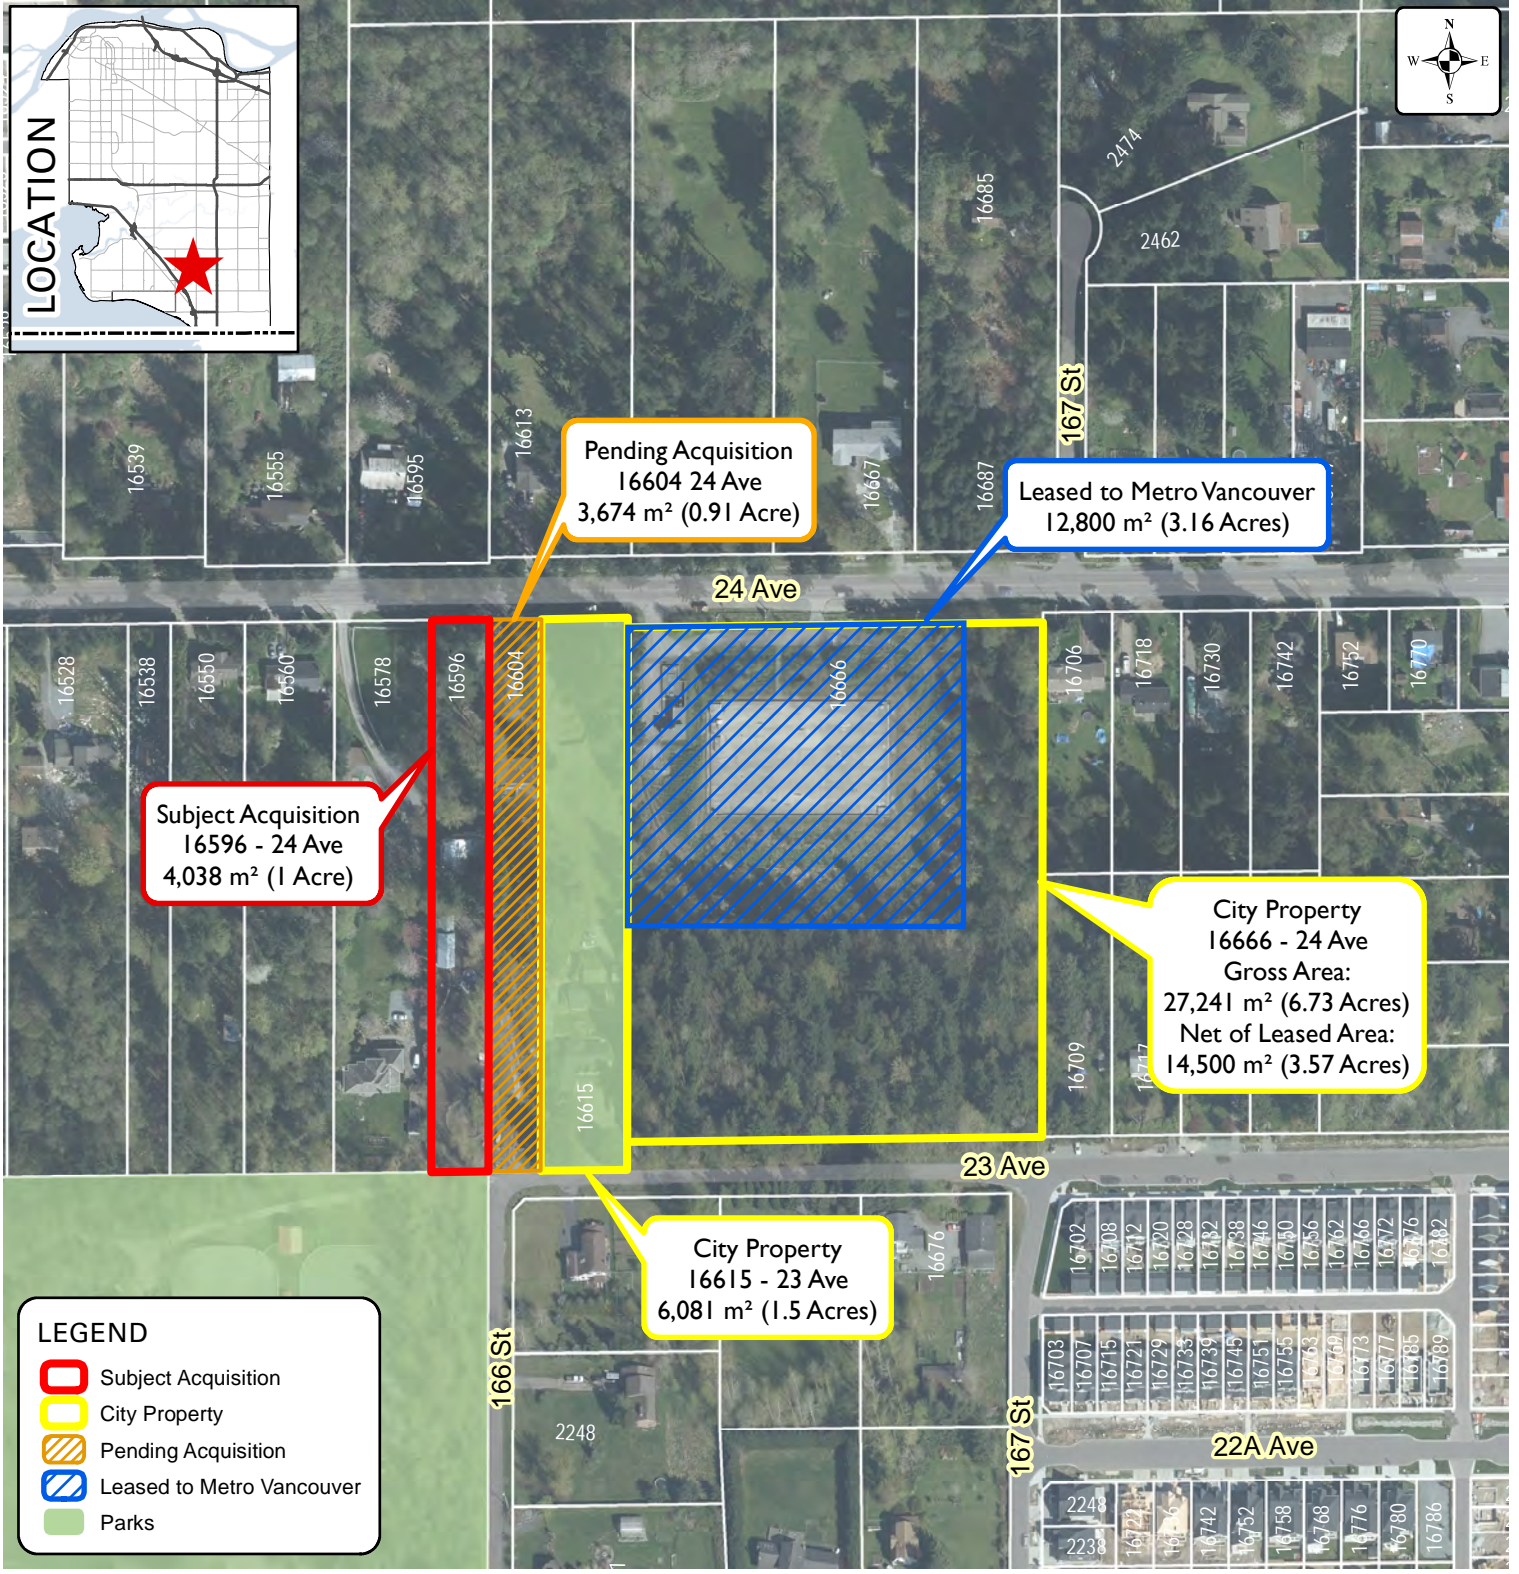

Based on the above discussion, it is recommended that Council approve, in accordance with the general terms and conditions described in this report, the purchase of the property located at 16596 – 24 Avenue (PID No. 011-386-282) to facilitate the construction of a portion of the future 166 Street between 23 Avenue and 24 Avenue.
