This exhibition presents 42 recent artworks by members of the Crescent Beach Photography Club. These artists show their passion for photography and ability to capture a moment. Works range from architectural and landscape images to still life and portrait studies. Some artworks employ traditional photographic methods, while many have been created using digital imaging. With the advent of digital photography, members are learning to incorporate a range of new techniques and technologies into their work.

The Crescent Beach Photography Club was founded in 1982 to enable its members to achieve personal growth and enjoyment in the art of photography. To this end, we organise lectures, workshops, competitions and field trips in all aspects of photography. As a self help group, members share their experience and skills to the benefit of all.

The images in this exhibition came from a broad cross section of our members. Our members come from a wide variety of backgrounds, experience and age groups. From beginning photographers, to advanced amateurs, to professionals; we share the common bond of photography.

We meet the first and third Wednesday of each month at Alexandra Neighbourhood House in Crescent Beach, Surrey, BC on the first, third, and fifth Wednesday of every month at 7:30 pm from September to May. A fourth Wednesday of each month is set aside for more advanced learning by members through workshops.

Visitors and new members are always welcome.

Thank you for your interest in the show.
