Surrey Trees & Landscape Tree Inventory Table

All fields must be complete and accurate for acceptance into the review process. Deficiencies or inaccuracies will be cause for return of the entire Arborist Report and required revision before City Staff reviews and provides comments. Please allow enough time for sufficient turn around. See the Arborist Reports for Development website (https://www.surrey.ca/renovating-building-development/trees-yard-garden/trees-landscape-land-development-requirements) for detailed directions and Report requirements.

The Arborist Report should break down the Tree Inventory into individual tables based on the Tree Location Guide (https://www.surrey.ca/sites/default/files/media/documents/TreeLocationGuide.pdf): one table for each of the following: on-site, off-site, and City. The "location" column below should reflect the Tree Location Guide tree identifier (i.e., in the on-site tree inventory table, a tree's location can be on-site, shared with off-site, or shared with Park/City or Boulevard.)

ID#	Surv eyed Y/N	Location: Onsite/ Offsite/ City	Common Name	Botanical Name	DBH (cm)		Canopy (Dia)	Condition (Structure, Health, TRAQ rating)	Comments	Retention Suitability	Retain/ Remove	Tree Protection Zone (m)
Ex. 3502		On-site – Shared with off- site	Douglas-Fir	Pseudotsuga menziesii	91	90	5	Good, Good	Asymmetric canopy	Suitable	Retain	5.46
