ADDENDUM #1

REQUEST FOR PROPOSALS (RFP) No. : 1220-030-2022-005

**TITLE: INTELLIGENT TRANSPORTATION
SYSTEMS (ITS) – VIDEO MANAGEMENT &
ANALYTICS SOFTWARE**

ADDENDUM ISSUE DATE: July 5th, 2022

on or before the following date and time

REVISED CLOSING DATE: Time: 12:00 p.m., local time

Date: July 18th, 2022

INFORMATION FOR PROPONENTS

This Addendum is issued to provide additional information to the RFP for the above-named project, to the extent referenced and shall become thereof. No consideration will be allowed for extras due to the Contractor not being familiar with this Addendum. This Addendum No. 1 contains two (2) pages in total.

REVISED CLOSING DATE:

on or before the following date and time

Time: 12:00 p.m., local time

Date: July 18th, 2022

QUESTIONS AND ANSWERS:

Q.1.would like to request an extension to the July 6th closing time of this solicitation. The reason for the request is that a number of key members of our team are currently on summer vacation and it is becoming increasingly difficult to assemble a proposal. My request is to extend the closing date from July 7th to August 7th.

A.1. See above Revised Closing Date.

Q.2. The requirements #2000 to #2008 are on the PDF (pages 24-25) but they are not on the worksheet (Sheet name: "Technical Requirements"). On the sheet the requirements start at number #2009. I've included both documents in this email. Should I be including responses to those 9 requirements?

A.2. Please include Technical Requirements #2000 through 2008 into your response for Schedule C-3-1 – Requirements Response Form.

Technical Requirements					
Req. #	Requirement	Elaboration	Category	Theme	Level of Need
2000	Software should allow for configuration of access control permissions. Also should have provision for hierarchical role-based access control	Example: Some users should be able to control the cameras, but other users should only be able to view traffic camera footage.	Core functionality	General	Preferred
2001	Ability to run client software using a web client	Please send a list of supported browsers. If there are any limitations to the software when using the web client, please list what the limitations are.	Core functionality	General	Preferred
2002	Software should capture log information on user actions		Core functionality	Audit	Desired
2003	Ability to track who has downloaded or archived traffic footage and at what time.		Core functionality	Audit	Desired
2004	Ability to track who has updated messages on traffic messaging signs		Core functionality	Audit	Preferred
2005	Describe if the software requires any cloud components, and if so where the cloud servers are located.	Please complete Cloud Sec Requirements worksheet for any cloud components	Core functionality	General	Preferred
2006	Please indicate whether the software supports integration with Microsoft Sharepoint (Office 365) to store extracted traffic clips		Desired functionality	Future Integration	Desired
2007	Ability to view web pages within the client software (example: viewing web enabled dashboards)		Desired functionality	General	Desired
2008	Ability to control the speed of video scrubbing		Core functionality	General	Preferred

– END OF ADDENDUM –

All Addenda will become part of the RFP Documents.
