### INFORMATION FOR CONTRACTORS

Contractors are advised that Addendum No. 1 to RFQ 1220-040-2022-017 is hereby issued by the City. This addendum shall form part of the contract documents and is to be read, interpreted and coordinated with all other parts. The following information is provided to answer questions raised by Contractors for the above-named project, to the extent referenced and shall become a part thereof. No consideration will be allowed for extras due to the Contractors or any sub-contractor not being familiar with this addendum. This Addendum No. 1 contains (2) pages.

#### 1. QUESTIONS AND ANSWERS:

**Q1.** Do these sites have meter already in place and we are just upgrading meter?

**A1.** While the water meters are already installed, some water meters/ meter registers have failed, and some are approaching the end of their respective lifespan. However, the RFQ is for supply of materials only and does not include any installations. The upgrade/ replacement works will be performed by the City's Operations team.

**Q2.** Are there any additional piping and fittings that will be required? How do I work that into the Quotation without knowing the materials needed?

**A2.** All additional materials required for the upgrade/replacement works will be sourced by the City's Operations team as required. The Contractor will only be responsible for supplying the materials specified in Schedule A of the RFQ (i.e., Sensus - OMNI C2 water meters and OMNI C2 water meter registers).

**Q3.** Are we installing meter in homes or commercial buildings?

**A3.** The meters that are planned to be upgraded/replaced for the 2022 Water Meter Replacement Program are located at both residential and commercial properties. As previously mentioned in the response to Q1, the RFQ is for supply of materials ONLY

and does not include any installations. All installations will be performed by City's Water Operations team.

**Q4.** What is Schedule A-1?

**A4.** Remove in its entirety any reference to Schedule A-1.
