ADDENDUM #1

REQUEST FOR QUOTATIONS (RFQ) NO.: 1220-040-2019-054
TITLE: SUPPLY AND DELIVERY OF ONE (1) COMBINATION
SEWER AND CATCH BASIN CLEANER TRUCK
ADDENDUM ISSUE DATE: July 30, 2019
CLOSING DATE: prefer to receive Quotations on or before:
August 8, 2019

INFORMATION FOR CONTRACTORS

This Addendum is issued to provide additional information to the RFQ for the above named project, to the extent referenced and shall become a part thereof. No consideration will be allowed for extras due to the Contractor not being familiar with this Addendum. This Addendum No. 1 contains one (1) page in total.

QUESTIONS AND ANSWERS:

Q1: In the preferred technical specification section Q, you request a 2-stage fan style of vacuum and all the build specs to prove longevity and safe operations. The style of truck that we offer uses a roots style supercharger to produce the vacuum. We would like to know if we were to provide a quote if we would still be eligible. Please let me know if you are willing to accept bids with this style of vacuum pump if we can provide all the safety and technical specifications.

A1: The preference is for a fan type system; however, Contractors are welcome to provide a Quotation if they feel their system is equal or superior to what the City is requesting. Contractors should provide appropriate supporting information, data, specifications and documentation.

Q2: Section C - item 2 is not clear as to which type of suspension is preferred. This is a key component. You have a variety of choices between spring pack, rubber block, or airride for the application.

A2: The rear suspension preference is a 46,000 lb air suspension.

END OF ADDENDUM #1

All Addenda will become part of the RFQ Documents.
