The Evaluation Team will give a written recommendation for the selection of a Preferred Proponent or Preferred Proponents to the City.

4.2 Evaluation Criteria

The Evaluation Team will compare and evaluate all Proposals to determine each Proponent's strength and ability to provide the Services in order to determine the Proposal, or Proposals, which are most advantageous to the City, using the following criteria:

- (a) Experience, Reputation and Resources – The Proponent's experience, reputation and resources as applicable to the performance of the Services.

For this evaluation criterion The Evaluation Team will consider the Proponent's responses to items in Schedule C-2.

- (b) Technical – The Proponent's technical proposal for the performance of the Services as outlined in the Proponent's responses to items in Schedule C-3 and Schedule C-4.

- (c) Financial – The Proponent's financial proposal for the performance of the Services as described in the Proponent's response to Schedule C-5.

All criteria considered will be applied evenly and fairly to all Proposals.

4.3 Discrepancies in Proponent's Financial Proposal

If there are any obvious discrepancies, errors or omissions in Schedule C-5 of a Proposal (Proponent's Financial Proposal), then the City shall be entitled to make obvious corrections, but only if, and to the extent, the corrections are apparent from the Proposal as submitted, and in particular:

- (b) if a unit price has been given but the corresponding extended total has been omitted, then the extended total will be calculated from the unit price and the estimated quantity; and
- (c) if an extended total has been given but the corresponding unit price has been omitted, then the unit price will be calculated from the extended total and the estimated quantity.

4.4 Litigation

In addition to any other provision of this RFP, the City may, in its absolute discretion, reject a Proposal if the Proponent, or any officer or director of the Proponent submitting the Proposal, is or has been engaged directly or indirectly in a legal action against the City, its elected or appointed officers, representatives or employees in relation to any matter, or if the City has initiated legal action against any officers or directors of the Proponent.

In determining whether or not to reject a Proposal under this Section, the City will consider whether the litigation is likely to affect the Proponent's ability to work with the City, its consultants and representatives and whether the City's experience with the Proponent indicates that there is a risk the City will incur increased staff and legal costs in the administration of the Agreement if it is awarded to the Proponent.

4.5 Additional Information

The Evaluation Team may, at its discretion, request clarifications or additional information from a Proponent with respect to any Proposal, and the Evaluation Team may make such requests to only selected Proponents. The Evaluation Team may consider such clarifications or additional information in evaluating a Proposal.

SCHEDULE A – SCOPE OF SERVICES

1. SCOPE OF SERVICES

The City is seeking a Proponent and its team to complete the pre-design, concept design, design development, and construction drawings of the Softball City parking lot located at 2201 148th Street, Surrey, B.C., and provide construction administration and field services during the construction phase (the “Consultant”). The successful Proponent and its team will work with the City staff to create a functional paved parking lot that maximizes the available parking while also improving visitor safety, tree canopy cover, and providing parking lot lighting and stormwater management.

2. PROJECT PURPOSE AND VISION

South Surrey Athletic Park (SSAP) spans 40 hectares in South Surrey, bordered by 20th Avenue, 18th Avenue, and west of 148th Street. Adjacent to Sunnyside Acres Urban Forest, the park features sports fields, playgrounds, outdoor recreation areas, the South Surrey Recreation Centre, and Rotary Field House. At the northern end, Softball City includes four lit softball diamonds, stadium seating for 1,000 spectators, a four-station batting cage, and a 5,000 sq. ft. field house.

The current gravel parking lot, on the north side of the diamonds, faces maintenance challenges, erosion, and uneven surfaces, impacting vehicular circulation and organization, especially during busy events. To address these issues, the City of Surrey (the “City”) plans to redesign and pave the parking lot to better serve Softball City’s needs for both everyday use and large-scale events. The goal is to provide a durable, low-maintenance surface that enhances the user experience.

The new parking lot will feature clearly marked stalls, improved traffic flow, and organization. It will also enhance pedestrian safety with well-designed pathways, crossings, and strategic lighting for better visibility during evening events. Additionally, soil cells will support tree growth to enhance canopy cover over the pavement and provide stormwater management.

3. SITE ELEMENTS

The City’s Park Division has completed a functional diagram to define the existing site elements:

Figure 1 – South Surrey Athletic Park - Softball City

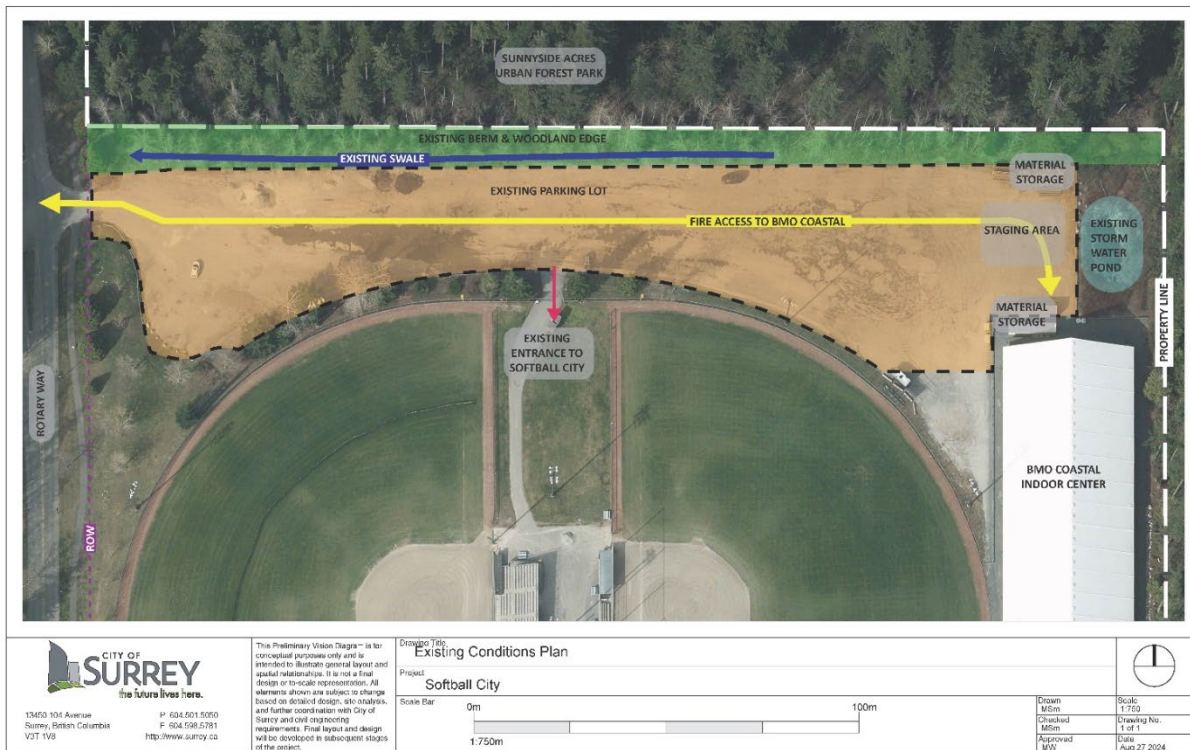

Figure 2 – South Surrey Athletic Park - Softball City Existing Conditions Plan

4. PROPONENT'S PROJECT TEAM

The Proponent and its team should be led by a civil engineer and should have the following specialists as part of the proposed project team as a requirement of the building permit process:

- APEGBC registered civil engineer with minimum 10 years experience in parking lot designs including stormwater management. The civil engineer will also serve as the Coordinating Registered Professional (CRP) for the building permit;
- APEGBC registered electrical engineer;
- BCSLA registered landscape architect;
- I.S.A certified arborist;
- Registered B.C. land surveyor; and
- Others as deemed necessary by the Proponent.

- Objective: Provide islands within the parking lot for trees.
- Objective: Ensure adequate soil volume to support robust tree growth.
- Objective: Limit existing tree removals.

Goal #5: Ensure Progressive and Detailed Drawing Submissions Across All Project Phases

- Objective: Submit 50% drawing submission tailored to the specific requirements of each project phase to establish a foundational framework. This submission should include essential design elements that addresses project objectives, design aesthetics, technical requirements, and budget constraints. It will serve as a key touchpoint for the City staff to review the proposed design and provide input. The drawings should be clear and legible to facilitate constructive feedback.
- Objective: Submit 90% drawing submission tailored to the specific requirements of each project phase, refining all design elements, and incorporating City feedback from the 50% submission review. This submission should represent a near-complete design, with detailed layouts, specifications, and documentation. It is crucial that all significant design decisions are finalized, allowing for thorough review by the City staff.

- Objective: Submit final 100% drawing submission tailored to the specific requirements of each project phase. All outstanding City comments and coordination items from the review process should be addressed prior to submission, ensuring compliance with all specifications and requirements.

6. PROJECT OBJECTIVES

The project will be developed with ongoing input from a staff project team. The project team will oversee the work of a consulting team implementing the project. The Proponent will assist the City in achieving the following objectives to include five phases as follows:

6.1 Phase 1 – Pre-Design

The Proponent will review existing information, synthesize data, and provide preliminary site design recommendations.

Deliverables:

- Meetings:
 - Start-Up Meeting: Attend start up meeting with the City staff to introduce key members, review the project schedule, budget, scope of work, and invoicing procedures.
 - Site Visit: Attend with the City staff. Attendees should include at minimum Civil Engineer and Arborist; proponents can propose additional attendees if deemed necessary for their work plan.
 - Pre-Design Report Meeting: Attend a meeting to present findings for the City review and discussion.
 - Provide meeting minutes for all meetings.
- Conduct a topographical and tree survey. The survey shall include: all features, drainage features (ditches, swales, etc.), trees (tagged, trunk diameter at breast height (dbh), canopy diameters, inventory, driplines, ground shots, top of berm, bottom of berm, and other structural elements, etc. In accordance with the City Bylaws, show all trees of 10cm caliper at breast height and larger, and the general layout and perimeter of vegetated areas. Gather lidar and other topographical, legal drawings, utility and ecological data available through open data on the City's website. The City's project lead will provide guidance on what data to collect. Review all as-constructed data/information provided by the City, obtained from COSMOS and private utilities, including BC one call records, and transfer onto the base plan. When considering as-built information, the original datum must be determined and any shift in datum must be considered. Comply with the City's georeferencing and format requirements for AutoCAD base plan and all subsequent AutoCAD drawings. Submit the base plan to the City for review and approval prior to proceeding with any conceptual or detailed design work.
- Pre-design report that includes the following:
 - Review of existing topographical conditions including, but not limited to, locations of entrances, existing gravel parking lot, existing trees, existing watercourses, existing servicing (drainage, irrigation, electrical), existing site grades, and existing hydrology.
 - Summary recommendations for:

- Proposed Traffic Requirements: Assess requirements for pedestrian and vehicular circulation, storage access, vehicular turning movements, fire truck access, and overall parking demands. Provide recommendations on park layout options.
- Proposed Stormwater Management: Evaluate stormwater management to identify opportunities and constraints. Provide recommendations for water quality treatment.
- Proposed Parking Lot Lighting: Evaluate site lighting requirements and other electrical infrastructure requirements, including EV stalls.
- Review of geotechnical report recommendations. Provide summary recommendations for the existing storm water pond remediation as mentioned in the report.
- Tree inventory and health assessment by I.S.A. certified arborist for the purposes of identifying and retaining any high-risk trees near the proposed parking lot footprint. Identifying hazard trees, using the TRAQ methodology (as per the City's assessment guidelines and risk thresholds for hazard tree mitigations), for removal based on the concept and design plan.
- Preliminary existing tree plan which will be coordinated with final master plan design to become the existing conditions and tree protection plan, to be completed by a certified arborist or registered professional forester.

6.2 Phase 2 – Concept Design

The Proponent will compete concept design and preliminary cost estimates for the Softball City parking lot, based on the City feedback of the pre-design review.

Deliverables:

- Meetings: Attend 2 meetings (at 50% and 90% design) with the City's project team to coordinate concept plan revisions and feedback. Provide meeting minutes. Proponents can propose additional meetings if deemed necessary for their work plan.
- Create the parking lot concept plan in coordination with the project team, which will include:
 - Preliminary existing conditions and tree management plan;
 - Preliminary layout and materials plan;
 - Preliminary grading plans;
 - Preliminary planting plans;
 - Preliminary electrical plans; and
 - Preliminary details and cross sections.
- Concept design drawing package submissions at 50%, 90%, and final.
- Rendering: The concept design rendering should include a color-rendered and labeled rendering of the plan. This rendering will be used for internal and public sharing to visualize the proposed design and facilitate better understanding and feedback from all stakeholders.
- Develop a Class D cost estimate and schedule of quantities.

6.3 Phase 3 – Design Development

The Proponent will develop a comprehensive design development drawing package and all applicable schedules and any required additional paperwork, signed and sealed, to support application for building permit and related City permits, and any related printing and courier costs.

Deliverables:

- Meetings: Attend 2 meetings (at 50% and 90% design) with the City’s project team to coordinate design development plan revisions and feedback. Provide meeting minutes. Proponents can propose more meetings in their Proposal as deemed necessary for their work plan.

 - Note: Fee proposals should include one initial building permit submission and one building permit re-submission, which addresses the feedback from the first BP submission in consultation with City staff. Any subsequent build permit submissions beyond this will be considered beyond the scope of the original contract and will be treated as an extra.
- Signed and sealed drawing package for building permit, submission of the building permit as the city’s agent, and any building permit correspondence.
- For the design development drawing package, provide the following:
 - Cover page;
 - Existing conditions and tree management plan;
 - Layout and materials plan (include fire truck turning radii);

- Prequalification processes for the civil construction works according to City policies, assistance in evaluating prequalified contractors for each, completion of specification package and relevant professional schedules to support permit applications, support in submitting for permits by Surrey staff, all necessary tender documents and any addenda required during the bid windows, and assistance in evaluating the received bids in preparation to award.
- Issued for Construction (IFC) Submission: Capture all design changes and addenda during the tender process and create a new IFC set as a submission requirement before entering the construction administration phase.
- AutoCAD .dwg files of the above IFC drawings

6.5 Phase 5 – Construction Administration

Construction administration services will be required. Please note that the City's Parks Division plays a dual role as both owner/developer and construction manager/general contractor. Instead of hiring an external Contractor under a large tendered contract, most park construction is handled by (A) in-house crews, (B) pre-approved external Contractors, and/or (C) small construction contracts.

Construction work, typically non-permitted, done by City crews, pre-approved external Contractors, and/or small contracts, will be managed and coordinated by the City's project construction coordinator. Therefore, the City will be considered as a general contractor.

Deliverables:

- Issue Site Instructions and Change Orders as required;
- Inspections as required;
- ESC Monitoring;
- Coordinate site environmental monitoring;
- Review all applicable shop drawings for approval;
- Review work in progress and prepare progress and field review reports as required;

SCHEDULE A1 – GEOREFERENCING REQUIREMENTS

The City of Surrey lies within Integrated Survey Area No.1, Surrey (ISA No.1), and is also covered by the Metro Vancouver Active Control System (MV-ACS). Through measurements to Integrated Survey Monuments around the City, surveys can be georeferenced to a standard accepted datum and map projection. Surrey’s digital data is stored and provided geospatially correct relative to the NAD83(CSRS) 4.0.0.BC.1.MVRD horizontal datum. Coordinates are projected in UTM Zone 10 North with drawing linework in GRID. This ensures consistency among the City’s integrated survey monuments, COSMOS data and direct GPS observations.

Accordingly, to provide data consistency and ease of use, all drawings, designs and coordinates provided to the City of Surrey must:

- Have horizontal (northing and easting) coordinates projected in the GRID UTM Zone 10 North map projection and be based on the NAD 83(CSRS) 4.0.0.BC.1.MVRD horizontal datum,
- Have all CAD linework in GRID distances, with a scale factor calculation between GRID to GROUND provided,
- Have elevations referred to the CVD28GVRD vertical datum, and
- Show in the legend of the drawing(s): the horizontal and vertical datums used, the GRID to GROUND scale factor, as well as the control monument and its respective coordinates (northing, easting, elevation) that were used to derive the coordinates and elevations of the survey/ drawing.

Additionally, all designs must be provided in both PDF and CAD formats.

A Sample legend is shown below for reference.

*All Distances Are Ground Distances. To Convert To Grid Distance, Multiply By Scale Factor.
 Coordinates In UTM, Zone N 10, Datum: NAD83(CSRS)4.0.0.BC.1.GVRD
 Control Monuments are Spatially Located in the Plan View of this Drawing.
 All Elevations Are Geodetic Derived From Control Monuments Situated Within City of Surrey.
 Control Monuments Shown are Published in the MASCOT Database Maintained by GeoBC.
 CAD Design File is Prepared in Grid.*

4. LIMITED AUTHORITY

4.1 Agent of City

The Consultant is not and this agreement does not render the Consultant an agent or employee of the City, and without limiting the above, the Consultant does not have authority to enter into any contract or reach any agreement on behalf of the City, except for the limited purposes as may be expressly set out in this agreement, or as necessary in order to perform the Services. The Consultant will make such lack of authority clear to all persons with whom the Consultant deals in the course of providing the Services. Every vehicle used by the Consultant in the course of performing the services shall identify the Consultant by name and telephone number.

4.2 Independent Contractor

The Consultant is an independent contractor. This agreement does not create the relationship of employer and employee, a partnership, or a joint venture. The City will not control or direct the details, means or process by which the Consultant performs the Services. The Consultant will determine the number of days and hours of work required to properly and completely perform the Services. The Consultant is primarily responsible for performance of the Services and may not delegate or assign any Services to any other person except as provided for in Section 3.4. 5.2 Payment

Subject to any contrary provisions set out in this Agreement:

- (d) the City will pay the portion of an Invoice which the City determines is payable less any deductions for setoffs or holdbacks permitted by this Agreement including, without limitation, any amounts permitted to be held back on account of deficiencies, within thirty (30) days of the receipt of the Invoice;

- (e) if the Consultant offers the City a cash discount for early payment, then the City may, at the City's sole discretion, pay the discounted portion of an Invoice; and
- (f) all Invoices shall be stated in, and all payments made in, Canadian dollars.

5.3 Disbursements

For greater certainty, costs of general management, non-technical supporting services and general overheads are deemed to be covered by the Fees and will not be subject to additional payment by the City.

5.4 Records

The Consultant will prepare and maintain proper records related to the Services, including records, receipts and invoices relating to Disbursements. On request from the City, the Consultant will make the records available open to audit examination by the City at any time during regular business hours during the time the Consultant is providing the Services and for a period of six years after the Services are complete.

5.5 Non-Residents

If the Consultant is a non-resident of Canada and does not provide to the City a waiver of regulation letter, the City will withhold and remit to the appropriate governmental authority the greater of:

- (a) 15% of each payment due to the Consultant; or
- (b) the amount required under applicable tax legislation.

6. CITY RESPONSIBILITIES

6.1 City Information

The City will, in co-operation with the Consultant make efforts to make available to the Consultant information, surveys, and reports which the City has in its files and records that relate to the Services. The Consultant will review any such material upon which the Consultant intends to rely and take reasonable steps to determine if that information is complete or accurate. The Consultant will assume all risks that the information is complete and accurate and the Consultant will advise the City in writing if in the Consultant's judgment the information is deficient or unreliable and undertake such new surveys and investigations as are necessary.

6.2 City Decisions

The City will in a timely manner make all decisions required under this agreement, examine documents submitted by the Consultant and respond to all requests for approval made by the Consultant pursuant to this agreement.

6.3 Notice of Defect

If the City observes or otherwise becomes aware of any fault or defect in the Services, it may notify the Consultant, but nothing in this agreement will be interpreted as giving the City the obligation to inspect or review the Consultant's performance of the Services.

7. INSURANCE AND DAMAGES

7.1 Indemnity

The Consultant will indemnify and save harmless the City and all of its elected and appointed officials, officers, employees, servants, representatives and agents (collectively the "Indemnitees"), from and against all claims, demands, causes of action, suits, losses, damages and costs, liabilities, expenses and judgments (including all actual legal costs) for damage to or destruction or loss of property, including loss of use, and injury to or death of any person or persons which any of the Indemnitees incur, suffer or are put to arising out of or in connection with any failure, breach or non-performance by the Consultant of any obligation of this agreement, or any wrongful or negligent act or omission of the Consultant or any employee or agent of the Consultant.

7.2 Survival of Indemnity

The indemnity described in Section 7.1 will survive the termination or completion of this agreement and, notwithstanding such termination or completion, will continue in full force and effect for the benefit of the Indemnitees.

7.3 Consultant's Insurance Policies

The Consultant will, without limiting its obligations or liabilities and at its own expense, provide and maintain throughout this agreement the following insurances in forms and amounts acceptable to the City from insurers licensed to conduct business in Canada:

- (a) commercial general liability insurance on an occurrence basis, in an amount not less than three million (\$3,000,000) dollars inclusive per occurrence against death, bodily injury and property damage arising directly or indirectly out of the work or operations of the Consultant, its employees and agents. The insurance will include cross liability and severability of interests such that the coverage shall apply in the same manner and to the same extent as though a separate policy had been issued to each insured. The insurance will include, but not be limited to: premises and operators liability, broad form products and completed operations, owners and Consultants protective liability, blanket contractual, employees as additional insureds, broad form property damage, non-owned automobile, contingent employers liability, broad form loss of use, personal injury, and incidental medical malpractice. The City will be added as additional insured;

The Consultant will provide the City with evidence of the required insurance prior to the commencement of this agreement. Such evidence will be in the form of a completed certificate of insurance acceptable to the City. The Consultant will, on request from the City, provide certified copies of all of the Consultant's insurance policies providing coverage relating to the Services, including without limitation any professional liability insurance policies. All required insurance will be endorsed to provide the City with thirty (30) days advance written notice of cancellation or material change restricting coverage. To the extent the City has an insurable interest, the builder's risk policy will have the City as first loss payee. The Consultant will be responsible for deductible amounts under the insurance policies. All of the Consultant's insurance policies will be primary and not require the sharing of any loss by the City or any insurer of the City.

7.5 Consultant Responsibilities

The Consultant acknowledges that any requirements by the City as to the amount of coverage under any policy of insurance will not constitute a representation by the City that the amount required is adequate and the Consultant acknowledges and agrees that the Consultant is solely responsible for obtaining and maintaining policies of insurance in adequate amounts. The insurance policy coverage limits shall not be construed as relieving the Consultant from responsibility for any amounts which may exceed these limits, for which the Consultant may be legally liable.

7.6 Additional Insurance

The Consultant shall place and maintain, or cause any of its sub-contractors to place and maintain, such other insurance or amendments to the foregoing policies as the City may reasonably direct.

7.7 Waiver of Subrogation

The Consultant hereby waives all rights of recourse against the City for loss or damage to the Consultant's property.

8. TERMINATION

8.1 By the City

The City may at any time and for any reason by written notice to the Consultant terminate this agreement before the completion of all the Services, such notice to be determined by the City at its sole discretion. Upon receipt of such notice, the Consultant will perform no further Services other than the work which is reasonably required to terminate the Services and return the City's property to the City. Despite any other provision of this agreement, if the City terminates this agreement before the completion of all the Services, the City will pay to the Consultant all amounts owing under this agreement for Services provided by the Consultant up to and including the date of termination, plus reasonable termination costs in the amount as determined by the City in its sole discretion. Upon payment of such amounts no other Fees or additional payment will be owed

by the City to the Consultant, and, for certainty, no amount will be owing on account of lost profits relating to the portion of the Services not performed or other profit opportunities.

8.2 Termination for Cause

The City may terminate this agreement for cause as follows:

- (a) If the Consultant is adjudged bankrupt, or makes a general assignment for the benefit of creditors because of its insolvency, or if a receiver is appointed because of its insolvency, the City may, without prejudice to any other right or remedy the City may have, terminate this agreement by giving the Consultant or receiver or trustee in bankruptcy written notice; or
- (b) If the Consultant is in breach of any term or condition of this agreement, and such breach is not remedied to the reasonable satisfaction of the City within 5 days after delivery of written notice from the City to the Consultant, then the City may, without prejudice to any other right or remedy the City may have, terminate this agreement by giving the Consultant further written notice.

If the City terminates this agreement as provided by this Section, then the City may:

- (a) enter into contracts, as it in its sole discretion sees fit, with other persons to complete the Services;
- (b) withhold payment of any amount owing to the Consultant under this agreement for the performance of the Services;
- (c) set-off the total cost of completing the Services incurred by the City against any amounts owing to the Consultant under this agreement, and at the completion of the Services pay to the Consultant any balance remaining; and
- (d) if the total cost to complete the Services exceeds the amount owing to the Consultant, charge the Consultant the balance, which amount the Consultant will forthwith pay.

8.3 Curing Defaults

If the Consultant is in default of any of its obligations under this agreement, then the City may without terminating this agreement, upon five (5) days written notice to the Consultant, remedy the default and set-off all costs and expenses of such remedy against any amounts owing to the Consultant. Nothing in this agreement will be interpreted or construed to mean that the City has any duty or obligation to remedy any default of the Consultant.

9. APPLICABLE LAWS, POLICIES, BUILDING CODES AND BY-LAWS

9.1 Applicable Laws and Policies

This agreement will be governed by and construed in accordance with the laws of the Province of British Columbia. The City and the Consultant accept the jurisdiction of the courts of British Columbia and agree that any action under this agreement be brought in such courts.

The Consultant shall comply with all applicable policies, procedures and instructions provided by the City.

9.2 Building Codes and By-Laws

The Consultant will provide the Services in full compliance with all applicable laws, building codes and regulations.

9.3 Interpretation of Codes

The Consultant will, as a qualified and experienced professional, interpret applicable codes, laws and regulations applicable to the performance of the Services. If an authority having jurisdiction imposes an interpretation which the Consultant could not reasonably have verified or foreseen prior to entering into this agreement, then the City will pay the additional costs, if any, of making alterations so as to conform to the required interpretation.

10. CONFIDENTIALITY AND DISCLOSURE OF INFORMATION

10.1 No Disclosure

Except as provided for by law or otherwise by this agreement, the Consultant will keep strictly confidential any information supplied to, obtained by, or which comes to the knowledge of the Consultant as a result of the performance of the Services and this agreement, and will not, without the prior express written consent of the City, publish, release, disclose or permit to be disclosed any such information to any person or corporation, either before, during or after termination of this agreement, except as reasonably required to complete the Services.

10.2 Freedom of Information and Protection of Privacy Act

The Consultant acknowledges that the City is subject to the *Freedom of Information and Protection of Privacy Act* of British Columbia and agrees to any disclosure of information by the City required by law.

10.3 Return of Property

The Consultant agrees to return to the City all of the City's property at the completion of this agreement, including any and all copies or originals of reports provided by the City.

11. USE OF WORK PRODUCT

The Consultant hereby sells, assigns and transfers to the City the right, title and interest required for the City to use and receive the benefit of all the reports, drawings, plans, designs, models, specifications, computer software, concepts, products, designs or processes or other such work product produced by or resulting from the Services rendered by the Consultant.

12. WORKERS' COMPENSATION BOARD AND OCCUPATIONAL HEALTH AND SAFETY

12.1 The Consultant agrees that it shall, at its own expense, procure and carry, or cause to be procured, carried and paid for, full Workers' Compensation Board coverage for itself and all workers, employees, servants and others engaged in or upon any work or service which is the subject of this agreement. The Consultant agrees that the City has the unfettered right

to set off the amount of the unpaid premiums and assessments for the Workers' Compensation Board coverage against any monies owing by the City to the Consultant. The City will have the right to withhold payment under this agreement until the Workers' Compensation Board premiums, assessments or penalties in respect of the Services have been paid in full.

- 12.2 The Consultant will provide the City with the Consultant's Workers' Compensation Board registration number and a letter from the Workers' Compensation Board confirming that the Consultant is registered in good standing with the Workers' Compensation Board and that all assessments have been paid to the date thereof prior to the City having any obligations to pay monies under this agreement.
- 12.3 The Consultant agrees that it is the prime contractor for the Services as defined in the *Workers Compensation Act, R.S.B.C. 2019, c.1* as amended and will ensure compliance with the *Workers Compensation Act* and Regulations in respect of the workplace. Without limiting its responsibilities under the legislation, the Consultant will coordinate the activities of employers, workers and other persons at the workplace relating to occupational health and safety. The Consultant will have a safety program in place that meets the requirements of the Workers' Compensation Board Occupational Health and Safety Regulation and the *Workers Compensation Act*. As prime contractor, the Consultant will be responsible for appointing a qualified coordinator for insuring the health and safety activities for the location of the Services. That person will be the person so identified in this agreement, and the Consultant will advise the City immediately in writing if the name or contact number of the qualified coordinator changes.
- 12.4 Without limiting the generality of any other indemnities granted by the Consultant in this agreement, the Consultant shall indemnify and save harmless the Indemnitees from and against all claims, demands, causes of action, suits, losses, damages, costs, liabilities, expenses, judgements, penalties and proceedings (including all actual legal costs) which any of the Indemnitees incur, suffer or are put to arising out of or in any way related to unpaid Workers' Compensation Board assessments owing from any person or corporation engaged in the performance of this agreement or arising out of or in any way related to the failure to observe safety rules, regulations and practices of the Workers' Compensation Board, including penalties levied by the Workers' Compensation Board.
- 12.5 The Consultant will ensure compliance with and conform to all health and safety laws, by-laws or regulations of the Province of British Columbia, including without limitation the *Workers Compensations Act* and Regulations pursuant thereto.
