

City of Surrey  
PLANNING & DEVELOPMENT REPORT  
File: 7917-0122-00

Planning Report Date: October 1, 2018

**PROPOSAL:**

- Rezoning from RA to RM-30
- Development Permit
- Development Variance Permit

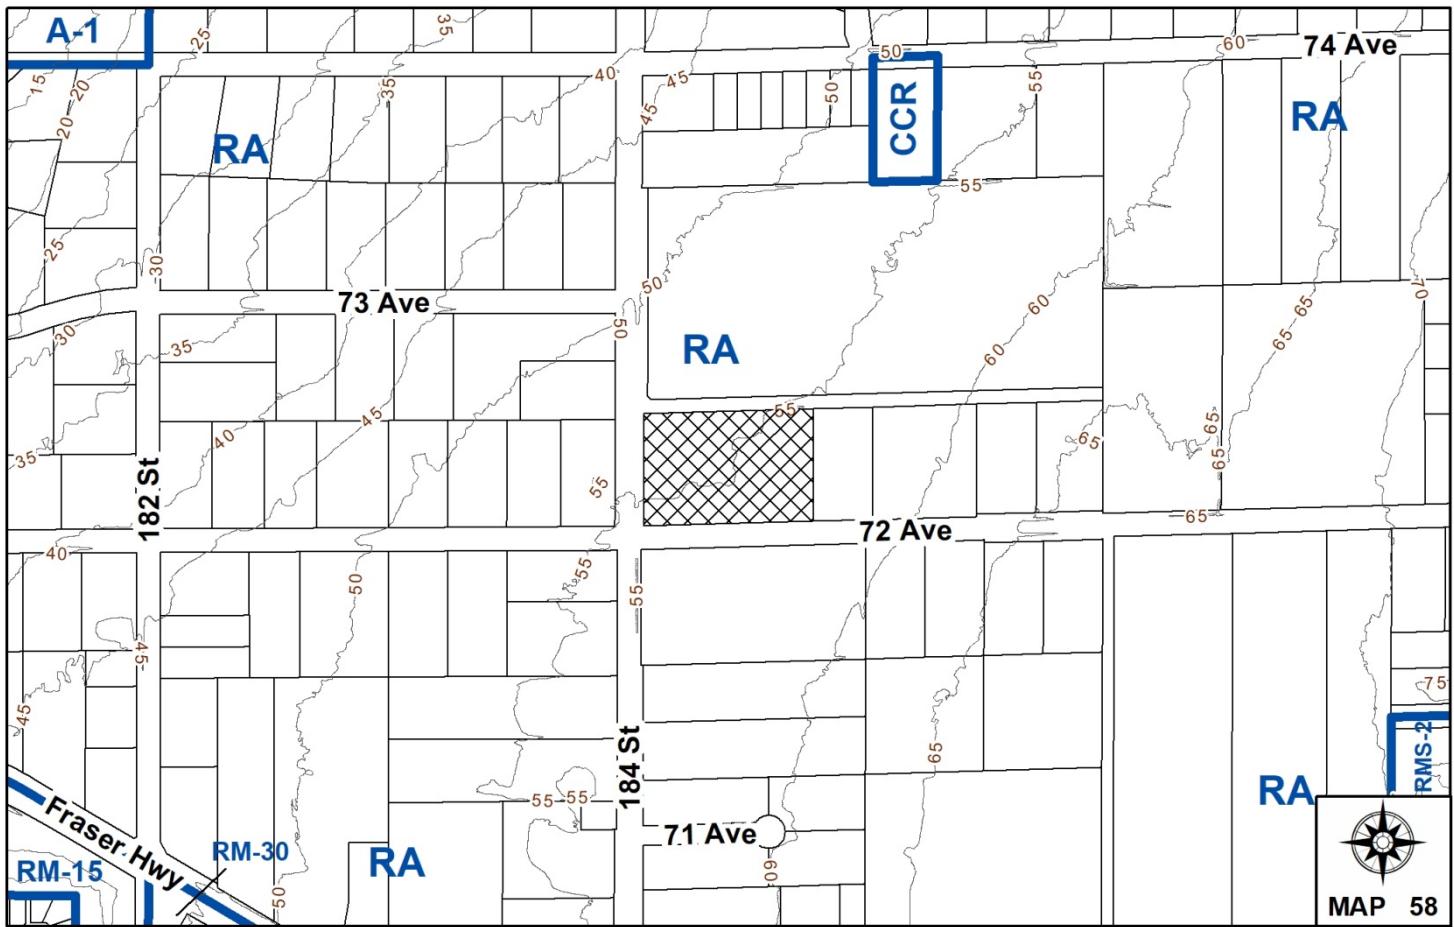

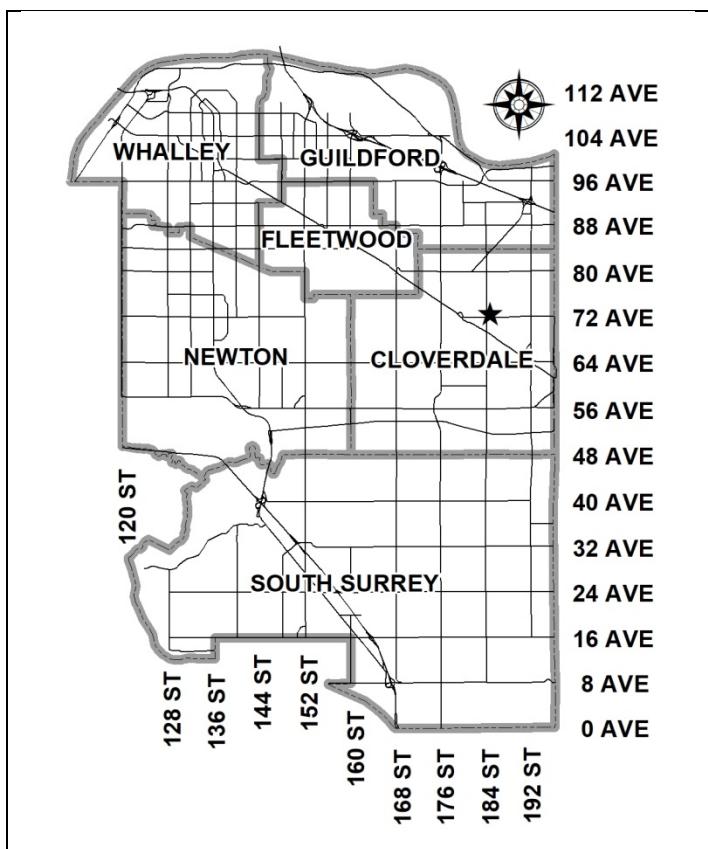

to permit the development of 71 townhouse units.

**LOCATION:** 18455 - 72 Avenue

**ZONING:** RA

**OCP DESIGNATION:** Urban

**NCP DESIGNATION:** Townhouse Residential (22 + 5 upa)

### RECOMMENDATION SUMMARY

- By-law Introduction and set date for Public Hearing for Rezoning;
- Approval to draft Development Permit; and
- Approval for Development Variance Permit to proceed to Public Notification.

### DEVIATION FROM PLANS, POLICIES OR REGULATIONS

- The subject site does not include a proposed consolidation with the adjacent property to the east, as set out in the West Clayton Neighbourhood Concept Plan (NCP) land consolidation strategy. Consequently, dedication and construction of the west half of the future 185 Street will not be delivered with the current application.
- The applicant is seeking to reduce the minimum front, side and rear yard building setbacks of the RM-30 Zone.

### RATIONALE OF RECOMMENDATION

- The proposed land use and density complies with the West Clayton NCP designation of Townhouse Residential (22+5 upa).
- To achieve an equitable distribution of road dedication and construction in the consolidation area as set out in the West Clayton NCP, the applicant has agreed to pay a proportional contribution toward the land and construction costs of future roads within the consolidation area as part of the Engineering servicing agreement. The applicant has also provided a concept plan for future development of the adjacent property to the east in order to demonstrate that the development potential of the excluded property is not compromised.
- The proposed development and road dedication support a City Capital construction project of pedestrian infrastructure along the east side of 184 Street, including a multi-use pathway (MUP) adjacent to Salish Secondary School. The applicant also proposes publicly accessible open space at the northwest corner of the site, on 184 Street and opposite the school, as set out in the Official Community Plan (OCP) guidelines for site design.
- Proposed setback reductions achieve a more urban, pedestrian streetscape along 72 Avenue, 72A Avenue, and 184 Street and still facilitate neighbouring tree retention along the east lot line. The proposed setbacks are consistent with similar townhouse projects and are also consistent with the West Clayton NCP design guidelines .

**RECOMMENDATION**

The Planning & Development Department recommends that:

1. A By-law be introduced to rezone the subject site from "One-Acre Residential Zone (RA)" to "Multiple Residential 30 Zone (RM-30)" and a date be set for Public Hearing.
2. Council authorize staff to draft Development Permit No. 7917-0122-00 generally in accordance with the attached drawings (Appendix II).
3. Council approve Development Variance Permit No. 7917-0122-00 (Appendix VI) varying the following, to proceed to Public Notification:
  - (a) to reduce the minimum north yard setback of the RM-30 Zone from 7.5 metres (25 ft.) to 4.5 metres (14.7 ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns;
  - (b) to reduce the minimum south yard setback of the RM-30 Zone from 7.5 metres (25 ft.) to 4.5 metres (14.7 ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns;
  - (c) to reduce the minimum west yard setback of the RM-30 Zone from 7.5 metres (25 ft.) to 4.5 metres (14.7 ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns; and
  - (d) to reduce the minimum east yard setback of the RM-30 Zone from 7.5 metres (25 ft.) to 6.4 metres (21 ft.) to the principal building face and 4.9 metres (16 ft.) to the porch columns;
4. Council instruct staff to resolve the following issues prior to final adoption:
  - (a) ensure that all engineering requirements and issues including restrictive covenants, dedications, and rights-of-way where necessary, are addressed to the satisfaction of the General Manager, Engineering;
  - (b) submission of a subdivision layout to the satisfaction of the Approving Officer;
  - (c) submission of a finalized tree survey and a statement regarding tree preservation to the satisfaction of the City Landscape Architect;
  - (d) submission of a finalized landscaping plan and landscaping cost estimate to the specifications and satisfaction of the Planning and Development Department;
  - (e) resolution of all urban design issues to the satisfaction of the Planning and Development Department;
  - (f) demolition of existing buildings and structures to the satisfaction of the Planning and Development Department;

- (g) registration of a Section 219 Restrictive Covenant to adequately address the City's needs with respect to public art, to the satisfaction of the General Manager Parks, Recreation and Culture;
- (h) registration of a Section 219 Restrictive Covenant to ensure the energy efficiency requirements outlined in the West Clayton NCP are satisfied; and
- (i) the applicant satisfy the deficiency in tree replacement on the site, to the satisfaction of the Planning and Development Department.

### REFERRALS

Engineering: The Engineering Department has no objection to the project subject to the completion of Engineering servicing requirements as outlined in Appendix III.

School District: **Projected number of students from this development:**

18 Elementary students at Clayton Elementary School  
9 Secondary students at Salish Secondary School

(Appendix IV)

The applicant has advised that the dwelling units in this project are expected to be constructed and ready for occupancy by 2020.

Parks, Recreation & Culture:

Parks recommend that outdoor amenity spaces be contiguous, useable and exclude tree retention areas. Visitor parking stalls should be located as to maximize useable outdoor space. Pedestrian connectivity through the site is encouraged. The applicant is required to pay the NCP amenity contributions on a per unit basis in keeping with the West Clayton NCP adopted by Council.

Fire:

Site is to be addressed off 72A Avenue. The revised site plan, which has centerline turning radii that do not limit the direction of travel for fire department access, is acceptable.

### SITE CHARACTERISTICS

Existing Land Use: Single family home and swimming pool on large suburban property.

Adjacent Area:

Direction	Existing Use	NCP Designation	Existing Zone
North:	Salish Secondary School	School	RA

Direction	Existing Use	NCP Designation	Existing Zone
East:	Single family home	Townhouse Residential (22 + 5 upa)	RA
South (Across 72 Avenue):	Single family home	Townhouse/Apartment Flex	RA
West (Across 184 Street):	Single family home	Urban/Townhouse Flex	RA

## DEVELOPMENT CONSIDERATIONS

### Background

- The subject site, at 18455 – 72 Avenue, is located in West Clayton and is approximately 1.38 hectares (3.41 ac.). There is an existing single family home, accessory structure and swimming pool on the site.
- The subject site is designated "Urban" in the Official Community Plan (OCP). Under the West Clayton Neighbourhood Concept Plan (NCP), the site is designated "Townhouse Residential (22 +5 upa)", permitting a base net density of 22 units per acre and an additional density bonus of up to 5 units per acre for applicants who commit to constructing energy efficient buildings. The site is currently zoned "One-Acre Residential Zone (RA)".
- The subject site is at the northeast intersection of 184 Street and 72 Avenue, which are identified as arterial roads in the West Clayton NCP. The site is located south of 72A Avenue, across from the Salish Secondary School which opened in September 2018.
- An Ecosystem Development Plan prepared by Envirowest Consultants Inc. confirmed the presence of a Class B (yellow-coded) ditch in the shoulder of 184 Street, along the west property line of the subject site. The application is exempted from the Sensitive Ecosystem Development Permit requirements of the OCP because the proposed new western property line, after road dedication, would be approximately 8.0 metres (26 ft.) from top-of-bank, exceeding the minimum 7.0 metres (23 ft.) streamside setback area required under Part 7A of the Zoning By-law.
- In order to accommodate a capital construction project of pedestrian infrastructure along the east side of 184 Street in 2018, the applicant agreed to dedicate the 184 Street frontage in advance of the rezoning application being introduced to Council. The City will construct necessary transportation works along 184 Street, including the construction of a multi-use pathway and the future relocation/closure of the Class B watercourse necessary for the ultimate widening of 184 Street. This will require approval from the Ministry of Forests, Lands and Natural Resource Operations under the *Water Sustainability Act*.
- Under the West Clayton NCP land consolidation strategy, the subject property and adjacent property to the east (18495 72 Avenue) were identified as a consolidation area in order to achieve an equitable distribution of road dedication and costs, including for the dedication and construction of the west half of the future 185 Street between 72 and 72A Avenue.

- The applicant was unable to achieve a consolidated development with the adjacent property to the east. As required by the West Clayton NCP land consolidation strategy, if consolidation is not possible, it must be demonstrated that the development potential of the excluded property is not compromised and the properties undertake to share any road construction costs. The applicant has provided a concept plan for future development of the adjacent property to the east in order to demonstrate that development potential of the excluded property is not compromised. The applicant has also agreed to pay a proportional contribution toward the land and construction costs of future roads in the consolidation area as part of the Engineering servicing agreement.

### Current Proposal

- The applicant is proposing a rezoning from “One-Acre Residential Zone (RA)” to “Multiple Residential 30 Zone (RM-30)” and a Development Permit to allow the development of 71 townhouse units.
- The net density for the proposed development is 62 units per hectare (25 upa) with a floor area ratio (FAR) of 1.0, which complies with the maximum unit density of 75 units per hectare (30 upa) and maximum FAR of 1.0 permitted in the RM-30 Zone. The proposed density also complies with the “Townhouse Residential (22 + 5 upa)” designation in the West Clayton NCP. The applicant is seeking the energy efficiency bonus and will be required to register a Section 219 Covenant to secure the necessary building design features.
- The applicant is also proposing a Development Variance Permit (DVP) to reduce the minimum building setbacks along the front, rear and side lot lines (see By-law Variances section below).

### PRE-NOTIFICATION

Pre-notification letters were sent on June 8, 2018 and a Development Proposal Sign was installed. One response letter was received. Staff received 2 responses, from the eastern neighbours and their representative and from the Cloverdale Community Association (staff comments are in *italics*):

- Concern about impacts of the proposed development on a row mature trees along the common property line and site drainage.

*(The development proposes a building setback of 6.4 metres (21 ft.) from the east property line of the subject site. A proposed 1.5 metre (5 ft.) sidewalk in front of the two townhouse buildings that face the east property line will have a meandering form and remain outside of the tree protection zone (TPZ) of off-site trees. The proposed sidewalk will be constructed above grade and without excavation in the TPZ. The subject site slopes to the northwest, away from the neighbouring property.)*
- The Cloverdale Community Association had questions about why the RM-30 Zone could not be amended to avoid frequent requests for setback variances, the amount of proposed amenity space and Fire Department review.

*(The RM-30 Zone requires a minimum setback of 7.5 metres (25 ft.) from all lot lines. Variances for setbacks along the street are commonly supported to bring buildings closer to the sidewalk to create a more urban and active streetscape. Proposals are evaluated individually because in some areas, a reduced setback may not be warranted.*

*The RM-30 Zone requires the provision of 213 square metres (2,293 sq.ft.) each of indoor and outdoor amenity space (3.0 square metres/32 sq.ft. of each amenity per dwelling.) The applicant proposes the minimum required outdoor amenity space and a reduced 177 square metres (1,905 sq.ft.) of indoor amenity space, with a cash-in-lieu payment for the shortfall in accordance with City policy.*

*Fire Department review addressed a number of issues including the need for unrestricted direction of movement within internal roads. The turn radii shown on the proposed site plan comply with Fire Department requirements.)*

## TOWNHOUSE DESIGN PROPOSAL AND REVIEW

- The proposed 71-unit townhouse project consists of twelve (12), three-storey buildings with garages accessed internally at grade. One proposed building (Building 9) has an attached two-storey amenity building with a separate entrance from the townhouse units.
- All proposed townhouses are 3-bedroom units with a floor area of 164 square metres (1,760 sq.ft.). All units have a private, second-floor balcony and an attached double car, side-by-side garage.
- Buildings have been oriented and setback to provide attractive interfaces along 184 Street, 72 and 72A Avenues, and the east property line. A publicly accessible open space is proposed at the northwest corner of the site, on 184 Street and opposite the Salish Secondary School.
- Four buildings within the centre of the site are oriented back to back with a walkway between and leading to the indoor and outdoor amenity areas in the west area of the site.
- Vehicle access to the site will be from 72A Avenue to the north and are proposed to align with the driveway accessing the Salish Secondary School parking lot. The required 142 resident parking stalls are provided in side-by-side garages and the required 14 visitor surface parking stalls are located throughout the site.

### Amenity Spaces

- The RM-30 Zone requires the provision of 213 square metres (2,293 sq.ft.) each of indoor and outdoor amenity space (3.0 square metres/32 sq.ft. of each amenity per dwelling.) The applicant proposes the minimum required outdoor amenity space and a reduced 177 square metres (1,905 sq.ft.) of indoor amenity space, with a cash-in-lieu payment for the shortfall.
- Tree retention on the west portion of the property, which provides passive greenspace as part of the required outdoor amenity space, has placed constraints on the size of the indoor amenity space. The applicant will provide a monetary contribution of \$14,400 (based on \$1,200 per unit) in accordance with City Policy to address the shortfall of 36 square metres

(388 sq.ft.).

- The site is located in close proximity to Clayton Community Centre, which is currently under construction.
- The landscape plan shows a total of 67 replacement trees, to be planted throughout the subject site including maple, pear, magnolia and cypress trees. A significant number of shrubs and ground cover species are also proposed.

## TREES

- Vanessa Melney, ISA Certified Arborist of Mike Fadum and Associates Ltd. prepared an Arborist Assessment for the subject property. The table below provides a summary of the tree retention and removal by tree species:

**Table 1: Summary of Tree Preservation by Tree Species:**

Tree Species	Existing	Remove	Retain
<b>Alder and Cottonwood Trees</b>			
Alder/Cottonwood	3	3	0
<b>Deciduous Trees</b> (excluding Alder and Cottonwood Trees)			
Apple	6	6	0
Cherry	3	3	0
Cherry, Sweet	3	3	0
Maple, Norway	1	1	0
Plum, Cherry	1	1	0
Plum, Pissard	5	5	0
Walnut, English	1	1	0
Willow, Weeping	3	3	0
<b>Coniferous Trees</b>			
Cedar, Western Red	12	12	0
Douglas-fir	4	3	1
Fir, Grand	2	2	0
Spruce, Norway	1	0	1
<b>Total (excluding Alder and Cottonwood Trees)</b>	<b>42</b>	<b>40</b>	<b>2</b>
<b>Total Replacement Trees Proposed (excluding Boulevard Street Trees)</b>	<b>67</b>		
<b>Total Retained and Replacement Trees</b>	<b>69</b>		
<b>Contribution to the Green City Fund</b>	<b>\$6,400</b>		

- The Arborist Assessment states that there are a total of 42 protected trees on the site, excluding Alder and Cottonwood trees. Three (3) existing trees, approximately 7 % of the total trees on the site, are Alder and Cottonwood trees. It was determined that 2 trees can be

retained as part of this development proposal. The proposed tree retention was assessed taking into consideration the location of services, building footprints, road dedication and proposed lot grading.

- For those trees that cannot be retained, the applicant is required to plant trees on a 1 to 1 replacement ratio for Alder and Cottonwood trees, and a 2 to 1 replacement ratio for all other trees. This will require a total of 83 replacement trees on the site. The applicant is proposing 67 replacement trees in the landscaping plan. The deficit of 16 replacement trees will require a cash-in-lieu payment of \$6,400 (\$400 per tree in deficit) to the Green City Fund, in accordance with the City's Tree Protection By-law.

### SUSTAINABLE DEVELOPMENT CHECKLIST

The applicant prepared and submitted a sustainable development checklist for the subject site on August 21, 2018. The table below summarizes the applicable development features of the proposal based on the seven (7) criteria listed in the Surrey Sustainable Development Checklist.

Sustainability Criteria	Sustainable Development Features Summary
1. Site Context & Location (A1-A2)	<ul style="list-style-type: none"> <li>In West Clayton NCP</li> </ul>
2. Density & Diversity (B1-B7)	<ul style="list-style-type: none"> <li>Complies with land use designation in West Clayton NCP</li> <li>3-bedrooms are proposed for all townhouse units</li> </ul>
3. Ecology & Stewardship (C1-C4)	<ul style="list-style-type: none"> <li>Landscaping will be included throughout the site</li> </ul>
4. Sustainable Transport & Mobility (D1-D2)	<ul style="list-style-type: none"> <li>Internal walkways connect to public streets</li> </ul>
5. Accessibility & Safety (E1-E3)	<ul style="list-style-type: none"> <li>Windows overlook all public/shared areas</li> </ul>
6. Green Certification (F1)	<ul style="list-style-type: none"> <li>Built Green program is being reviewed</li> </ul>
7. Education & Awareness (G1-G4)	<ul style="list-style-type: none"> <li>Pre-notification and Development proposal sign</li> <li>Council Public Hearing</li> </ul>

### BY-LAW VARIANCE AND JUSTIFICATION

(a) Requested Variance:

- To reduce the minimum north yard setback of the RM-30 Zone from 7.5 metres (25 ft.) to 4.5 metres (14.7 ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns;

- To reduce the minimum south yard setback of the RM-30 Zone from 7.5 metres (25 ft.) to 4.5 metres (14.7 ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns;
- To reduce the minimum west yard setback of the RM-30 Zone from 7.5 metres (25 ft.) to 4.5 metres (14.7 ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns; and
- To reduce the minimum east yard setback of the RM-30 Zone from 7.5 metres (25 ft.) to 6.4 metres (21 ft.) to the principal building face and 4.9 metres (16 ft.) to the porch columns.

**Applicant's Reasons:**

- The proposed setback variances allow for efficient unit layout and more urban streetscapes.

**Staff Comments:**

- The RM-30 Zone requires that buildings and structures be sited a minimum of 7.5 metres (25 ft.) from all property lines.
- The reduced setbacks along the north, south and west property lines for the front yards of the proposed townhouse units will create appropriate urban, pedestrian-friendly streetscapes along 72A Avenue, 72 Avenue and 184 Street.
- The reduced setbacks along the east lot line for the back yards of the proposed townhouse units still accommodate a walkway, functional backyard space, and tree retention on the adjacent property.
- Staff support the requested variances.

#### NOTES / GENERAL

- 1) PLANT SIZES IN THIS LIST ARE SPECIFIED ACCORDING TO BC LANDSCAPE STANDARD "LATEST EDITION". CONTAINED SIZES ARE SPECIFIED AS PER "NTA STANDARDS" BOTH PLANT SIZE AND CONTAINER SIZE ARE THE MINIMUM ACCEPTABLE SIZES. SEARCH AND REVIEW MAKE PLANT MATERIALS FROM APPROVED SUPPLIERS. PLANT MATERIALS MUST BE FROM APPROVED SUPPLY AREA. AREA TO INCLUDE LOMAS MALLARD AND FRASER VALLEY. "SUBSTITUTION" MUST OBTAIN WRITTEN APPROVAL FROM THE "LANDSCAPE ARCHITECT" PRIOR TO MAKING ANY SUBSTITUTIONS. ALL PLANT MATERIALS THAT ARE SUBSTITUTED WILL BE RELATED ALLOW A MAXIMUM OF FIVE WORKING DAYS PRIOR TO DELIVERY OR REQUEST TO SUBSTITUTE. SUBSTITUTIONS ARE SUBJECT TO BC LANDSCAPE STANDARD.

ALL PLANT MATERIAL MUST BE PROVIDED FROM CERTIFIED "DISEASE FREE" NURSERY. ALL PLANT MATERIAL MUST CONFORM TO THE LATEST EDITION OF THE "BC LANDSCAPE STANDARD". PROVIDE CERTIFICATION UPON REQUEST. ALL LANDSCAPE AND LANDSCAPE MATERIALS TO CONFORM TO THE LATEST EDITION OF THE BCNA/BCLA "LANDSCAPE STANDARDS".

- 2) MIN. GROWING MEDIUM DEPTHS OVER PREPARED SUBGRADE SHALL BE:

LAWN AREAS 300 mm  
GROUNDCOVER AREAS 450 mm  
GRASS BERMAS 450 mm  
TREE PITS 300 mm AROUND ROOT BALL

- 3) GROWING MEDIUM SHALL HAVE PHYSICAL AND CHEMICAL PROPERTIES AS DESCRIBED IN THE STANDARDS FOR LEVEL 3 AND LEVEL 3 AREAS, EXCEPT FOR AREAS OVER STRUCTURES WHERE THE SOIL IS COMPACTED DUE TO CONSTRUCTION ACTIVITIES. THE SOIL FOR PLANTING AND MIXING OF GROWING MEDIUM COMPONENTS SHALL BE DONE OFF-SITE USING A MECHANIZED SCREENING PROCESS. PROPOSED GROWING MEDIUM SHALL BE TESTED BY A RECOGNIZED LABORATORY. THE TESTS SHALL BE CONDUCTED ON A SAMPLE OF THE GROWING MEDIUM. THE TESTING IS A REPRESENTATIVE SAMPLE TAKEN FROM THE SOIL THAT WILL BE USED AT THE SITE.

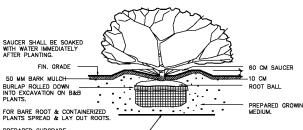

- 4) ON-SITE OR MOVED SOIL SHALL SATISFY THE REQUIREMENTS OF THE STANDARDS FOR GROWING MEDIUM. SOILS SHALL BE VERTICALLY FREE FROM SUBSOIL, WOOD, INCL. WOODY PLANT PARTS, NEED OF REPRODUCTIVE PARTS OF WEEDS, PLANT PATHOGENIC ORGANISMS, TOXIC MATERIALS, STONES OVER 30 MM AND FOREIGN OBJECTS.

- 5) ALL PLANTING BEDS SHALL RECEIVE 50 MM BARK MULCH.

- 6) PLANT SPECIES AND VARIETIES MAY NOT BE SUBSTITUTED WITHOUT THE APPROVAL OF THE LANDSCAPE ARCHITECT.

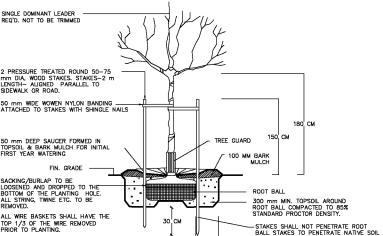

- 7) THE CONTRACTOR SHALL GUARANTEE ALL MATERIALS AND WORKMANSHIP FOR A PERIOD OF ONE (1) FULL YEAR FROM THE DATE OF FINAL ACCEPTANCE, UNLESS OTHERWISE SPECIFIED. ALL PLANT MATERIAL NOT SURVIVING, OR IN POOR CONDITION DURING THE GUARANTEE PERIOD SHALL BE REPLACEMENTS PROVIDED BY THE CONTRACTOR AT NO COST.

- 8) THE CONTRACTOR SHALL CLEAR AWAY FROM THE SITE ALL SOIL WHICH AS IT ACCUMULATES, AND SHALL, AT THE COMPLETION OF THE WORK, LEAVE THE WORK AND THE SITE THEREOF IN A CLEAN AND PRESENTABLE CONDITION, FREE FROM ALL OBSTRUCTIONS.

## INTER-OFFICE MEMO

TO: Manager, Area Planning & Development  
 - North Surrey Division  
 Planning and Development Department

FROM: Development Engineer, Engineering Department

DATE: September 27, 2018 PROJECT FILE: 7817-0122-00

RE: Engineering Requirements  
 Location: 18455 72 Avenue

**REZONE/SUBDIVISION*****Property and Right-of-Way Requirements***

- dedicate 4.942-metre along 72 Avenue to the 30.0-metre arterial road standard.
- dedicate 5.808-metres along 184 Street to achieve 17.2-metre from centerline on the east side, for a unique arterial road standard.
- dedicate 8.5-metres along 72A Avenue to the 20.0-metre local road standard.
- dedicate corner cuts.
- register 0.5-metre statutory right-of-way along all road frontages.

***Works and Services***

- construct 72 Avenue to the interim arterial road standard as per the NCP.
- construct storm, water, and sanitary mains and service connections to service the development as per the NCP.
- implement Best Management Practices to manage storm water as per the West Clayton NCP Stage 2 Servicing Strategy and the Clayton Integrated Stormwater Management Plan.
- construct downstream offsite sanitary mains (North Cloverdale Trunk Sewer) and offsite storm trunk mains as per the NCP.
- provide onsite interim detention until Pond 1 construction is complete.
- pay 78% cash-in-lieu for both land and design/construction of future 185 Street due to the absence of consolidation with the neighbouring property.
- pay all applicable fees and charges against the lands.
- register legal documents as determined through detail design.

A Servicing Agreement is required prior to Rezone.

**DEVELOPMENT PERMIT/DEVELOPMENT VARIANCE PERMIT**

There are no engineering requirements relative to issuance of the Development Permit/Development Variance Permit beyond those noted above.

*[Handwritten signature]*  
 for **Tommy Buchmann, P.Eng.**  
 Development Engineer

Planning

**THE IMPACT ON SCHOOLS**

APPLICATION #: 17 0122 00

**SUMMARY**

The proposed 71 townhouse units are estimated to have the following impact on the following schools:

**Projected # of students for this development:**

Elementary Students:	18
Secondary Students:	9

**September 2017 Enrolment/School Capacity**

<b>Clayton Elementary</b>	
Enrolment (K/1-7):	36 K + 193
Operating Capacity (K/1-7)	57 K + 93
<b>Salish Secondary</b>	
Enrolment (8-12):	#N/A
Capacity (8-12):	#N/A

**School Enrolment Projections and Planning Update:**

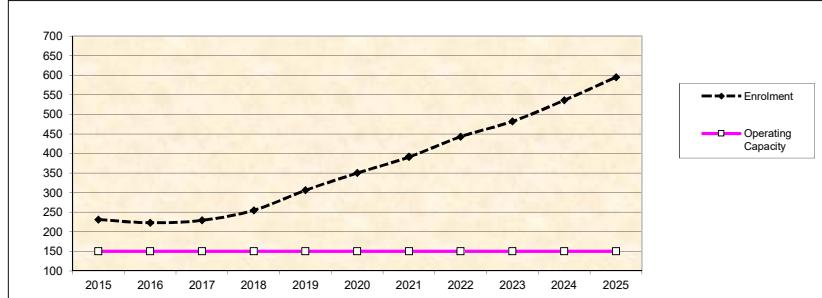

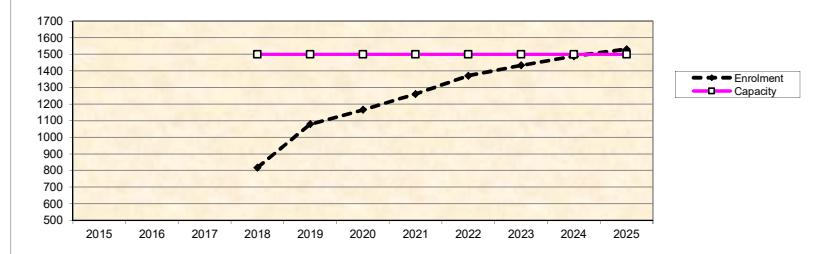

The following tables illustrate the enrolment projections (with current/approved ministry capacity) for the elementary and secondary schools serving the proposed development.

Katzie Elementary was opened in the spring of 2014 to relieve pressure at the existing Clayton Elementary. The Clayton area is one of the fastest growing communities because of the build out of the East Clayton NCP and development of the Aloha Estates. As of September 2017, the school has 12 portables on site used for enrolling spaces. Hazelgrove Elementary was built in 2009, and in 2011, a 4 classroom addition was added. As of September 2017, Hazelgrove has 10 portables on site used for enrolling spaces. Currently, there is a 606 elementary seat shortfall in the Clayton area and this is projected to grow to over 800 seats if no new seats are added in the next 5 years.

To meet the increasing demand for enrolling space in this area, the district is currently in design and construction for two new 605 capacity elementary schools just to the north of Katzie Elementary. Both facilities are targeting to be open September 2020 which will relieve the immediate in-catchment enrollment pressure.

As part of the District's 2018/19 Capital Plan submission to the Ministry of Education, the district is asking for a site expansion along with a 445 capacity addition to the existing Clayton Elementary targeted to open September 2024 to meet future growth in the community. This project has yet to be approved for capital funding.

A new 1500 capacity high school, Ecole Salish Secondary, is scheduled to open September 2018. The new boundaries has been established dividing the existing Clayton Heights Secondary into two catchments. Clayton Elementary will feed the new Salish Secondary when it opens in September 2018.

**Clayton Elementary****Salish Secondary**

\* Nominal Capacity is estimated by multiplying the number of enrolling spaces by 25 students.

Maximum operating capacity is estimated by multiplying the number of enrolling spaces by 27 students.

## Tree Preservation Summary

Surrey Project No: 17-0122-00

Address: 18455 - 72 Avenue

Registered Arborist: Jeff Ross ISA: PN-7991A

Appendix V

On-Site Trees	Number of Trees
<b>Protected Trees Identified</b> (on-site and shared trees, including trees within boulevards and proposed streets and lanes, but excluding trees in proposed open space or riparian areas)	45
<b>Protected Trees to be Removed</b>	43
<b>Protected Trees to be Retained</b> (excluding trees within proposed open space or riparian areas)	2
<b>Total Replacement Trees Required:</b>	
- Alder & Cottonwood Trees Requiring 1 to 1 Replacement Ratio $3 \times \text{one } (1) = 3$	83
- All other Trees Requiring 2 to 1 Replacement Ratio $40 \times \text{two } (2) = 80$	
<b>Replacement Trees Proposed</b>	67
<b>Replacement Trees in Deficit</b>	16
<b>Protected Trees to be Retained in Proposed [Open Space / Riparian Areas]</b>	NA

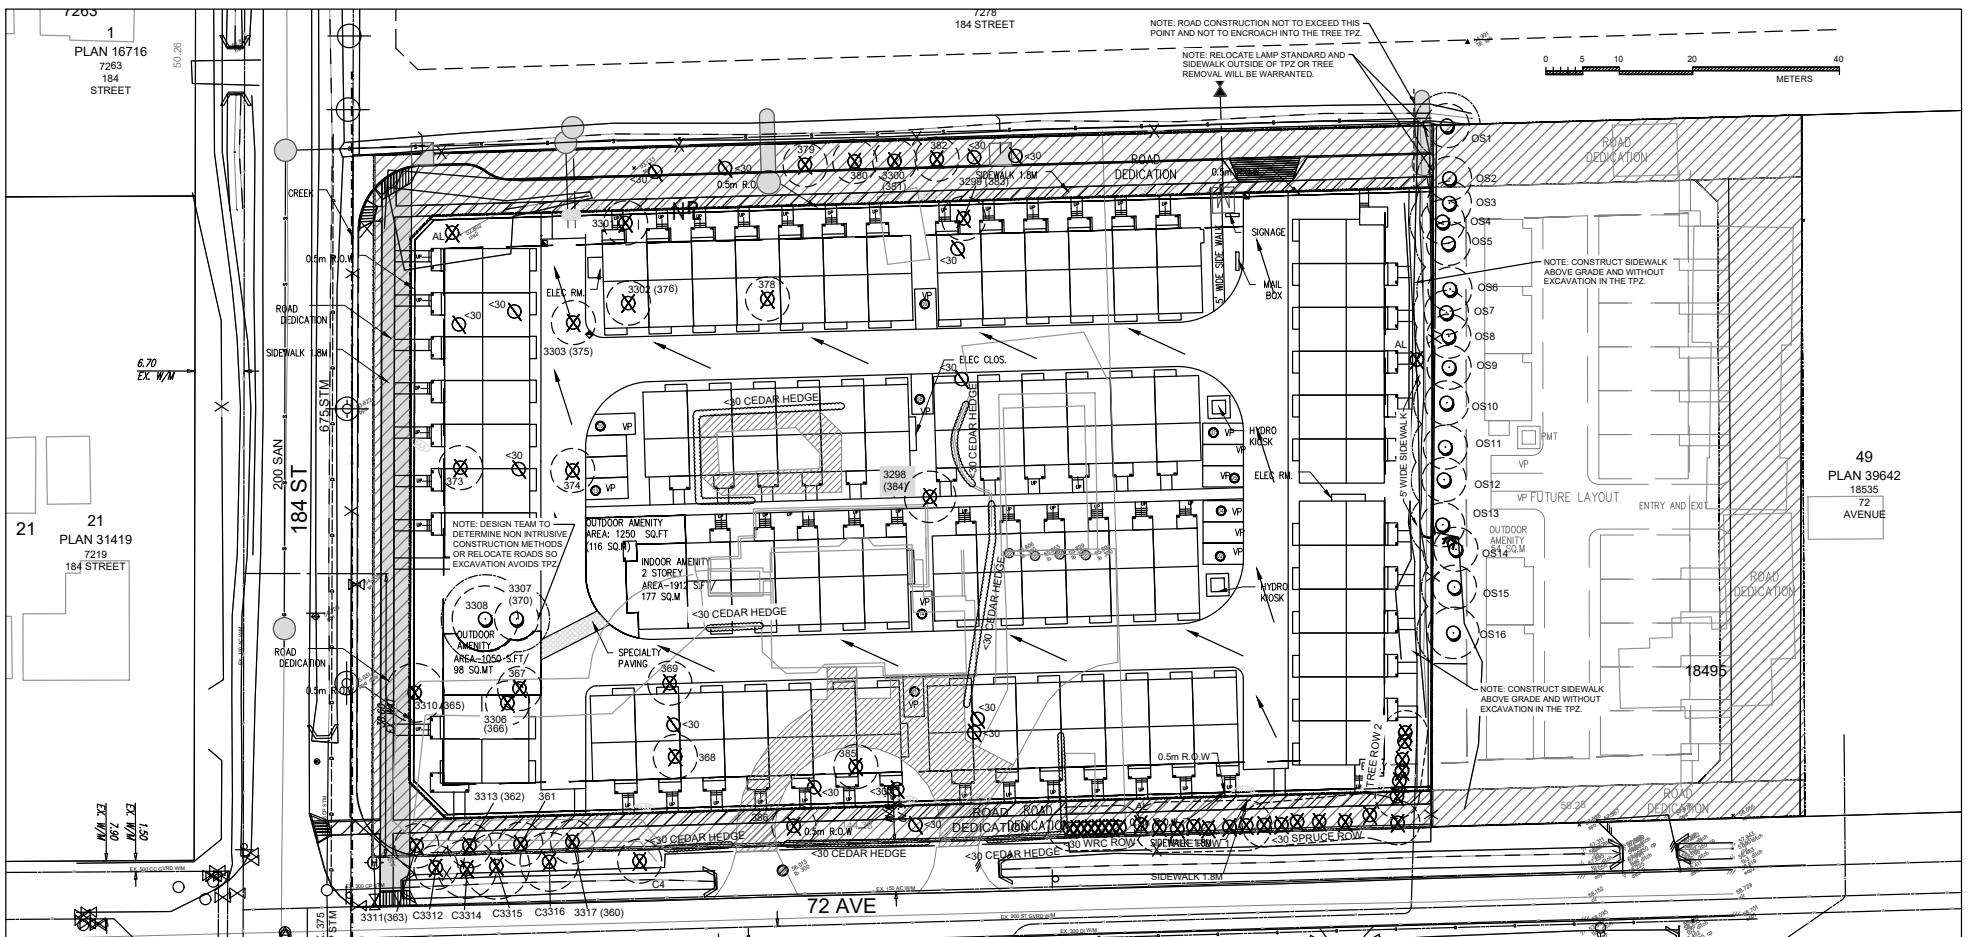

Off-Site Trees	Number of Trees
<b>Protected Off-Site Trees to be Removed</b>	0
<b>Total Replacement Trees Required:</b>	
- Alder & Cottonwood Trees Requiring 1 to 1 Replacement Ratio $0 \times \text{one } (1) = 0$	0
- All other Trees Requiring 2 to 1 Replacement Ratio $0 \times \text{two } (2) = 0$	
<b>Replacement Trees Proposed</b>	TBD
<b>Replacement Trees in Deficit</b>	TBD

DATE DECEMBER 5, 2016	

(the "City")

**DEVELOPMENT VARIANCE PERMIT**

NO.: 7917-0122-00

Issued To:

(the Owner)

Address of Owner:

1. This development variance permit is issued subject to compliance by the Owner with all statutes, by-laws, orders, regulations or agreements, except as specifically varied by this development variance permit.
2. This development variance permit applies to that real property including land with or without improvements located within the City of Surrey, with the legal description and civic address as follows:

Parcel Identifier: oo8-637-776  
Lot 52 Section 21 Township 8 New Westminster District Plan 39373

18455 - 72 Avenue

(the "Land")

3. (a) As the legal description of the Land is to change, the City Clerk is directed to insert the new legal description for the Land once title(s) has/have been issued, as follows:

Parcel Identifier:

---

3. (b) If the civic address(es) change(s), the City Clerk is directed to insert the new civic address(es) for the Land, as follows:
- 

4. Surrey Zoning By-law, 1993, No. 12000, as amended is varied as follows:

- a) In Part 22 Multiple Residential 30 Zone (RM-30) Section F Yards and Setbacks, the minimum north yard setback is varied from 7.5 metres (25 ft.) to 4.5 metres (14.7

- ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns;
- b) In Part 22 Multiple Residential 30 Zone (RM-30) Section F Yards and Setbacks, the minimum south yard setback is varied from 7.5 metres (25 ft.) to 4.5 metres (14.7 ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns;
  - c) In Part 22 Multiple Residential 30 Zone (RM-30) Section F Yards and Setbacks, the minimum west yard setback is varied from 7.5 metres (25 ft.) to 4.5 metres (14.7 ft.) to the principal building face and 3.0 metres (10 ft.) to the porch columns; and
  - d) In Part 22 Multiple Residential 30 Zone (RM-30) Section F Yards and Setbacks, the minimum east yard setback is varied from 7.5 metres (25 ft.) to 6.4 metres (21 ft.) to the principal building face and 4.9 metres (16 ft.) to the porch columns;
5. This development variance permit applies to only that portion of the buildings and structures on the Land shown on Schedule A which is attached hereto and forms part of this development variance permit. This development variance permit does not apply to additions to, or replacement of, any of the existing buildings shown on attached Schedule A which is attached hereto and forms part of this development variance permit.
6. The Land shall be developed strictly in accordance with the terms and conditions and provisions of this development variance permit.
7. This development variance permit shall lapse if the Owner does not substantially start any construction with respect to which this development variance permit is issued, within two (2) years after the date this development variance permit is issued.
8. The terms of this development variance permit or any amendment to it, are binding on all persons who acquire an interest in the Land.
9. This development variance permit is not a building permit.

AUTHORIZING RESOLUTION PASSED BY THE COUNCIL, THE      DAY OF      , 20 .  
ISSUED THIS      DAY OF      , 20 .
